THOMAS ESMAY IS KILLED BY AUTO

ACCIDENT AT 6TH ST. RAILWAY CROSSING WED.

WAS RETURNING HOME FROM
CHAUTAUQUA WHEN HE
WAS STRUCK

DEATH CAR OWNED AND DRIVEN
BY ARCHIE
LYTLE

Thomas Esmay, 523 Third Avenue, Northeast, died at a local hospital shortly before 11 o'clock Wednesday evening, from the results of an accident in which he was injured an hour earlier, when he was struck by an automobile on the Sixth street railway crossing.

Mr. Esmay had attended the Wednesday evening session of the chautauqua, and was walking home when the accident occurred. It is reported that as he was crossing the railway tracks, walking north, an automobile traveling south, struck him down and passed over his body before it stopped.

The car was owned and driven by Archie Lytle, 520 South Seventh street. In it beside Mr. Lytle were Ransford Fox, of West Brainerd, and James Bosley, 414 Quince street.

The only witness to the accident seems to have been H. S. Paine, a switchman, who was riding on the front footboard of a switch engine working in that section of the yards at the time. The engine was approaching the Sixth street crossing, and Mr. Paine saw Mr. Esmay thrown to the ground and saw the car pass over him, it is stated. The crossing was entirely deserted just at the time of the accident, no pedestrians or cars being in sight.

Mr. Paine assisted the men in the automobile to pick up Mr. Esmay, and he was taken at once to the Northwestern hospital. But instead of going to the main entrance of that institution, they went to the side entrance, which opens into the new portion of the building, and which was locked. Being unable to gain an entrance here, the men went to St. Joseph hospital, where the injured man was given every medical attention.

Mr. Esmay was unconscious when he was picked up after the accident, and passed away without having regained consciousness. It is said that his skull was fractured at the base of the brain. He also received severe bruises about the head and face.

The men in the car took the proper attitude concerning the whole affair. As soon as they had taken the injured man to the hospital, they came back down town and gave themselves into custody to Captain Erick Graff, who placed them in the city jail for the night. Mr. Lytle states that his car was traveling about 8 or 10 miles per hour at the time of the accident, and that he was unable to stop before he had gone 20 feet farther.

Coroner's Inquest
The coroner's inquest is to be held this afternoon at 4 o'clock, at which time details of the case will be disclosed.

Thomas Esmay was born in Sabula, Iowa, in 1854. Here he grew to manhood and married Miss Katherine Hoffman, of that city on December 24th, 1877.

The family moved to Brainerd in April, 1895, and have since resided in Northeast Brainerd. Mrs. Esmay passed away on March 29th, 1923.

Surviving are two daughters and a son, Mrs. O. A. Peterson and Mrs. H. C. Stein, of Brainerd, and Joseph Esmay, of Tacoma, Washington. There are four grand children and two great grandchildren. Joseph Esmay will arrive on Sunday morning.

Mr. Esmay was employed as a foreman of the Brainerd Lumber Company's mill in this city until that company went out of business. He was later employed in the planing mill at the local N. P. shops until recent years.

The deceased was a member of the local Masonic lodge and attended the Peoples Congregational church.

The funeral will be held on Monday afternoon, June 29th, at 3 o'clock from the Peoples church in Northeast Brainerd, Rev. N. P. Olmsted, officiating, and interment made in Evergreen cemetery.

Athens, Greece, June 25.—Revolution has broken out in Greece and the Michalakopoli government has resigned.

The president has asked Pananapafelou to form a new government.

KIWANIS TO NAME CONVENTION CITY OF 1926

MONTREAL, MEMPHIS, INDIANAPOLIS AND NEW ENGLAND CITIES IN RACE

YESTERDAY WAS A STRENUOUS SESSION, BUSINESS AND PLEASURE

(By United Press)
St. Paul, June 25.—Interest at the opening session of the Kiwanis International here today centered on selection of the 1926 convention city.

Montreal, Memphis, Indianapolis and New England cities were ready to muster their delegates for the supreme effort. Officials of Kiwanis early today would make no prediction as to the probable outcome of the vote.

Yesterday's strenuous session — both business and pleasure — was brought to a grand climax with an indoor ice carnival in the Minneapolis arena rink. A program of fancy skating and a hockey game between Twin City teams furnished entertainment for 5,000 Kiwanians and their friends.

Officers Elected
J. H. Moss, Milwaukee, was elected president of the Kiwanis International without opposition at the morning's session of the Kiwanis convention here today.

Three other principal officers elected without opposition were:

First Vice President J. P. Neal, Walla Walla, Washington.

Second Vice President J. W. C. Kaylor, Montreal, and Treasurer H. C. Heinz, Atlanta, Georgia.

These were the men nominated yesterday by the nominating committee and no other candidates were named to oppose them.

Six members of the board of trustees will be elected later.

Montreal was awarded first prize trophy in the gold division for best attendance and general efficiency and class with membership of 151 or more. Second prize was won by Vancouver, B. C. and third by Atlantic City.

In the silver division, classes with 76 to 150 members, Cairo, Ill., won first prize. The second and third prize winners were North Hudson, N. J. and Edmonton, Alberta.

GOV. SORLIE TO FILL VACANCY

WILL APPOINT SUCCESSOR TO
LATE SENATOR EDWIN F.
LADD

(By United Press)
Bismarck, N. D., June 25.—Governor A. G. Sorlie stated positively today that he would make appointment to fill the vacancy caused by the death of Senator Edwin F. Ladd. The governor feels it would be wrong to place the burden of a special election on the people at this time.

If anyone wishes to challenge his authority to make an appointment, the governor said, "they may do so and the expense of the election will be on their shoulders." Sorlie is not ready yet, however, to say whom he will name for the post.

GENERAL HEAVY RAINS OVER THE NORTHWEST

BREAK 2 MONTHS' DROUGHT,
SAVE FARMERS
MILLIONS

MOISTURE COMES TOO LATE TO
BE OF BENEFIT TO
WHEAT

(By United Press)
Chicago, June 25.—General heavy rains over the middle west during the past 24 hours broke a two months' drought and saved the farmers millions of dollars, according to reports from experts received here today.

A total of 1.70 inches of rain fell over the area up to last night. Rain is falling in some sections today.

For two months farmers in the drought stricken area were apprehensive over crop conditions. They had been getting too much sunshine. Intermittent rain showers were of no consequence coming as they did ten days to two weeks apart.

The moisture came too late to be of much benefit to wheat, but small grain reacted favorably, according to advices. Harvesting of a short winter crop is almost general over the territory two weeks ahead of schedule. The plant shows lack of moisture and is lower in quality.

Spring planted corn and oats received enough moisture for several weeks and according to these experts should show steady improvement. The rains were also of vast benefit to forage crops that had started to feel the effects of the long dry period. Fruits and vegetables badly hit by abnormal weather with freezing temperature were expected to show great improvement.

HENRY RINES HAS RESIGNED

CEASES TO FUNCTION AS STATE
TREASURER, TAKES UP
NEW DUTIES

(By United Press)
St. Paul, June 25.—Henry Rines resigned as state treasurer today, his resignation to take effect on July 1st.

On that day he will become state comptroller and chairman of the commission of administration and finance, offices created when the last legislature passed a measure reorganizing the state government.

DEPARTURE IN TRAIN OPERATION

SOO LINE BUILDING 2 CAR TRAIN,
GASOLINE-
DRIVEN

TO BE EQUIPPED WITH 175
HORSEPOWER HEAVY
DUTY MOTOR

(By United Press)
Minneapolis, June 25.—The Soo line railroad has under construction at the Minneapolis Steel & Machinery Company's plant a large gasoline driven two-car train to be equipped with a 175-horsepower heavy duty motor, it was announced by George L. Gillette, vice-president of the machinery company.

It is expected the cars will be completed about September 1st. The Soo line will then give them a trial test and if it is found the new form of transportation proves successful, additional equipment may be constructed, it was said.

RECEIVERS OF MILWAUKEE TO PAY INTEREST

(By United Press)
Chicago, June 25.—Receivers for the Chicago, Milwaukee & St. Paul railroad were ordered to pay into court the sum due July 1 on bonds of \$10,000,000 held by the government, by Federal Judge Wilkerson today.

Assistant District Attorney Grossman, in arguing his motion, told the judge failure to pay interest would necessitate sale of \$16,500,000 collateral held by the treasury department. Attorneys for the other bond holders and special counsel for the railroad told Judge Kilkerson they would agree to pay the government.

DEFENSE OF SHEPHERD NOW HAS INNING

ATTORNEY CLAIMS SHEPHERD
JUSTIFIED PREVENTING
POPE WEDDING

SAID GIRL TRIED TO MARRY MC-
CLINTOCK ON DEATH
BED

(By United Press)
Criminal Court Room, Chicago, June 25.—William Darling Shepherd was justified in preventing the marriage of his millionaire ward, Billy McClintock to Miss Isabelle Pope, Shepherd's attorney declared today in his argument to the jury in the \$1,000,000 germ murder trial.

"Why shouldn't he have prevented it?" William Scott Stewart, Shepherd's chief counsel asked the jury.

"That girl tried to marry Billy on his death bed. That would not have been a marriage to love, honor and obey—that would have been a marriage simply to get the money."

Stewart as he started his argument for Shepherd's acquittal at yesterday's session of court ridiculed the charges of murder. He had talked more than four hours and was not yet finished when court recessed for lunch.

WINONA MAN HAS DISAPPEARED

POLICE BELIEVE JOHN BUCHAN
MAY HAVE FALLEN INTO
RIVER

(By United Press)
Winona, June 25.—Police today were investigating the disappearance of John Buchan who has been missing for two days.

Mike Clemenski reported that late Tuesday evening he saw a man fall from a boat near the Burlington bridge. Upon investigation it was said that John Slaggle and the missing man had been together in two boats and that both were intoxicated.

When Slaggle was taken ashore yesterday, police said he was so intoxicated that he did not know whether Buchan was with him.

A jug of moonshine also was found in Buchan's boat, they said.

BUS QUEEN IS FIRST FINED

MUST PAY \$450 FOR NOT GET-
TING LICENSE FOR HER
LINE

(By United Press)
St. Paul, June 25.—Miss Helen M. Schultz, president of the Red Ball Transfer Company which operates busses between Mason City, Iowa, and Minnesota cities, was the first woman to be fined under the new state bus law.

She was fined \$450 for not having applied for a license for the company in this state.

MUCH DAMAGE AS GIANT SLIDE DAMS A RIVER

3 HUGE RANCHES NEAR CHEY-
ENNE COMPLETELY SUB-
MERGED

GROS VENTRE RIVER FORMS A
DEVASTATING
BASIN

(By United Press)
Cheyenne, Wyo., June 25.—Three huge ranches, each totalling thousands of acres, were completely submerged by the lake formed when a giant avalanche completely dammed the Gros Ventre river 20 miles east of Jackson, Wyo., Tuesday, according to messages reaching here today.

The total area of the basin formed was estimated to be 7,000 acres. Water in the Gros Ventre, a Cascade Mountain torrent, had risen to a depth of 250 feet early today while news from the scene rushed overland from Jackson by the cow-pony express indicated that the giant new artificial lake had not yet reached its natural level.

Property damage done by the mountainous landslide was estimated at several hundred thousand dollars, being confined to buildings, ranches, timber and cattle.

No lives were lost. Inhabitants of the neighborhood were given ample time to escape with their families by the thundering roar of a tumbling mountain.

BOY SEIZED WITH CRAMPS, DROWNS

Mitchell, S. D., June 25.—Floyd Courtney, 20, of Whitewood was drowned while swimming near here in Damon creek. It is believed he was seized with cramps. The body has been recovered.

FIX LIABILITY OF AUTO BUSES

MAXIMUM FOR PERSONAL IN-
JURY PLACED AT
\$10,000

(By United Press)
St. Paul, June 25.—The maximum liability for personal injury on automobile busse was fixed at \$10,000 today by the state railroad and warehouse commission. The maximum formerly was \$20,000.

At the same time the commission fixed a scale limiting the liability to bus companies for individual accident.

MAC MILLAN TO INSTALL NAVAL RADIO

WILL COMPLY WITH NAVY DE-
PARTMENT DE-
MANDS

EXPLORER HAS ARRIVED AT
SYDNEY, NOVA
SCOTIA

(By United Press)
Sydney, N. S., June 25.—Although he is personally satisfied with the radio equipment of his Arctic expedition, Lieut-Commander Donald B. MacMillan will comply with the navy department demands that he install navy equipment on his boats, he told the United Press today.

MacMillan arrived here yesterday. He had received Secretary of Navy Wilbur's ultimatum that navy equipment must be installed or navy participation in the expedition withdrawn. The navy equipment was shipped Tuesday on the destroyer, Putnam to Sydney.

PRE-HISTORIC MASTADON TOOTH FOUND

(By United Press)
Buffalo, S. D., June 25.—Considerable attention has been attracted to the finding of parts of a jaw and tooth of what is believed to be a pre-historic mastadon by Jim Ridgeway near his ranch in the Grande river section.

GOVERNMENT ILLS BLAMED ON PUBLIC FOR LAX INTEREST

CANADIAN OFFICIAL AVERS
PEOPLE ARE TO BLAME FOR
CONSEQUENCES

DON'T HOLD FALSE HOPES TOW-
ARD YOUTHFUL GENERA-
TION, HE WARNS

St. Paul, June 25.—If politics and government are controlled by undesirable, then whose fault is it? And if politics and politicians are such ignoble and undesirable systems and persons, then why is there held out to every school boy in the United States, the hope that some day, he may become president of the United States?

A packed auditorium audience of Kiwanis international delegates was confronted with these questions by Charles Dunning, premier of Saskatchewan, the principal speaker at the morning session of the Kiwanis international delegates.

This "liberal" from Saskatchewan did not mince his words. His questions apparently were tempered with a seeming resentment of the popular notion regarding the state and condition of politics and politicians. Premier Dunning is known throughout Canada for his liberal tendencies. He has been in public office for more than nine years.

Prefacing his remarks with his own frank statement that he was "just a politician," he proceeded to define the word and its meaning.

"Politics," he said, "has come to be talked down as much as some other things are talked up and largely because of this regrettable habit that too many people assume, has it come to pass that politics generally and politicians certain, are looked upon with askance, as things unclean and to be shunned by right-minded men."

N. D. TO LOSE ITS HIGHWAY COMMISSION

(By United Press)
Bismarck, N. D., June 25.—Employees of the state highway commission have received their "departure" notices and all machinery in the department has been placed on the market for sale in preparation for the abolition of the commission July 1.

The action has resulted from recent resolution passed by the county board of county commissioners.

The resolution specified that all war material and other material will be disposed of, either by auction or "community" sale.

DIED AS RESULT OF BEING HIT BY TRUCK

(By United Press)
Minneapolis, June 25.—Alexander G. Bainbridge, 73, former member of the board of education, died last night at General hospital as result of an automobile accident more than a month ago. Bainbridge was struck by a truck while on his way to work.

CHINESE KILLED IN ARIZONA TOWNS

(By United Press)
Nogales, Ariz., June 25.—Several Chinese were killed and considerable loot carried away by bandits who entered Magdalena, Sonora, and shot up the town, according to advices here today. Magdalena is 50 miles south of here.

BRITISH AND FRENCH MARINES RETURN THE FIRE

FOREIGN CASUALTIES 1 FRENCH-
MAN KILLED, 5 PEOPLE
WOUNDED

CLASH TOOK PLACE AT SHAMEEN
AND FOLLOWED STUDENT
DEMONSTRATION

(By United Press)
Hongkong, June 25.—The only foreign casualties in the clash at Shameen involving Chinese students and British were one Frenchman killed and one Britisher, two Japanese and two French wounded by shot from the Chinese demonstrators.

The majority of Americans from Canton are safe here.

An American woman refugee who did not wish to disclose her name reported there had been heavy slaughter among the Chinese demonstrators when British and French marines responded to the fusillade of the Chinese against Shameen.

The American woman said the last section of the parade of the Chinese which comprised 3,000 military cadets equipped with rifles and bayonets deliberately fired on Shameen. She said Russian officers mounted and wearing paper masks gave the signal to fire. Thereupon, the cadets faced about and fired their fusillade. According to her, English and French marines replied, taking heavy toll among the Chinese.

Another American said that persons in the procession leaped like dervishes making threatening gestures and shouting, "kill the foreigners."

SHANGHAI CRIPPLED, BUSINESS PARALYZED

Shanghai, June 25.—The crippled city of Shanghai is struggling the fourth week of general strike with business practically paralyzed. The majority of able bodied men in the foreign settlement are members of the volunteer police reserve and are patrolling the city every night.

The center of violence, however, seems to have shifted to Hongkong.

SASH AND DOOR COMPANY OF MILL CITY IN FIRE LOSS

(By United Press)
Minneapolis, June 25.—The C. W. Lundquist Sash & Door company's factory here was destroyed by fire last night. The fire, which shot flames high into the air, attracted a crowd estimated at 3,000 who witnessed the firemen battling heroically to prevent spread of the flames to nearby buildings.

OUT OF WORK AND EVICTED

FAMILY OF 6 SPENDS NIGHT IN
ST. PAUL POLICE
STATION

(By United Press)
St. Paul, June 25.—Mrs. Helen Brown and her five children spent last night at central police station as a result of their being evicted from their home when the husband who had been out of work was unable to pay the rent.

Yesterday morning the family had a storage company haul away their household goods and Mrs. Brown and her children waited at the company's office, while the husband went out to find another home. She waited until 10 P. M. last night and then employees of the moving concern notified police. The group was given room in the matron's quarters.

Police were searching for Brown early today.

THOMAS ESMAY IS KILLED BY AUTO

ACCIDENT AT 6TH ST. RAILWAY CROSSING WED.

WAS RETURNING HOME FROM
CHAUTAUQUA WHEN HE
WAS STRUCK

DEATH CAR OWNED AND DRIVEN
BY ARCHIE
LYTLE

Thomas Esmay, 523 Third Avenue, Northeast, died at a local hospital shortly before 11 o'clock Wednesday evening, from the results of an accident in which he was injured an hour earlier, when he was struck by an automobile on the Sixth street railway crossing.

Mr. Esmay had attended the Wednesday evening session of the chauteauqua, and was walking home when the accident occurred. It is reported that as he was crossing the railway tracks, walking north, an automobile traveling south, struck him down and passed over his body before it stopped.

The car was owned and driven by Archie Lytle, 520 South Seventh street. In it beside Mr. Lytle were Ransford Fox, of West Brainerd, and James Bosley, 414 Quince street.

The only witness to the accident seems to have been H. S. Paine, a switchman, who was riding on the front footboard of a switch engine working in that section of the yards at the time. The engine was approaching the Sixth street crossing, and Mr. Paine saw Mr. Esmay thrown to the ground and saw the car pass over him, it is stated. The crossing was entirely deserted just at the time of the accident, no pedestrians or cars being in sight.

Mr. Paine assisted the men in the automobile to pick up Mr. Esmay, and he was taken at once to the Northwestern hospital. But instead of going to the main entrance of that institution, they went to the side entrance, which opens into the new portion of the building, and which was locked. Being unable to gain an entrance here, the men went to St. Joseph hospital, where the injured man was given every medical attention.

Mr. Esmay was unconscious when he was picked up after the accident, and passed away without having regained consciousness. It is said that his skull was fractured at the base of the brain. He also received severe bruises about the head and face.

The men in the car took the proper attitude concerning the whole affair. As soon as they had taken the injured man to the hospital, they came back down town and gave themselves into custody to Captain Erick Graff, who placed them in the city jail for the night. Mr. Lytle states that his car was traveling about 8 or 10 miles per hour at the time of the accident, and that he was unable to stop before he had gone 20 feet farther.

Coroner's Inquest
The coroner's inquest is to be held this afternoon at 4 o'clock, at which time details of the case will be disclosed.

Thomas Esmay was born in Sabula, Iowa, in 1854. Here he grew to manhood and married Miss Katherine Hoffman, of that city on December 24th, 1877.

The family moved to Brainerd in April, 1895, and have since resided in Northeast Brainerd. Mrs. Esmay passed away on March 29th, 1923.

Surviving are two daughters and a son, Mrs. O. A. Peterson and Mrs. H. C. Stein, of Brainerd, and Joseph Esmay, of Tacoma, Washington. There are four grandchildren and two great grandchildren. Joseph Esmay will arrive on Sunday morning.

Mr. Esmay was employed as a foreman of the Brainerd Lumber Company's mill in this city until that company went out of business. He was later employed in the planing mill at the local N. P. shops until recent years.

The deceased was a member of the local Masonic lodge and attended the Peoples Congregational church.

The funeral will be held on Monday afternoon, June 29th, at 3 o'clock from the Peoples church in Northeast Brainerd. Rev. N. P. Olmsted, officiating, and interment made in Evergreen cemetery.

On that day he will become state comptroller and chairman of the commission of administration and finance, offices created when the last legislature passed a measure reorganizing the state government.

DEPARTURE IN TRAIN OPERATION

SOO LINE BUILDING 2 CAR TRAIN,
GASOLINE-
DRIVEN

TO BE EQUIPPED WITH 175
HORSEPOWER HEAVY
DUTY MOTOR

(By United Press)
Minneapolis, June 25.—The Soo line railroad has under construction at the Minneapolis Steel & Machinery Company's plant a large gasoline driven two-car train to be equipped with a 175-horsepower heavy duty motor, it was announced by George L. Gillette, vice-president of the machinery company.

It is expected the cars will be completed about September 1st. The Soo line will then give them a trial test and if it is found the new form of transportation proves successful, additional equipment may be constructed, it was said.

RECEIVERS OF MILWAUKEE TO PAY INTEREST

(By United Press)
Chicago, June 25.—Receivers for the Chicago, Milwaukee & St. Paul railroad were ordered to pay into court the sum due July 1 on bonds of \$10,000,000 held by the government, by Federal Judge Wilkerson today.

Assistant District Attorney Grossman, in arguing his motion, told the judge failure to pay interest would necessitate sale of \$16,500,000 collateral held by the treasury department. Attorneys for the other bond holders and special counsel for the railroad told Judge Wilkerson they would agree to pay the government.

DEFENSE OF SHEPHERD NOW HAS INNING

ATTORNEY CLAIMS SHEPHERD
JUSTIFIED PREVENTING
POPE WEDDING

SAID GIRL TRIED TO MARRY MC-
CLINTOCK ON DEATH
BED

(By United Press)
Criminal Court Room, Chicago, June 25.—William Darling Shepherd was justified in preventing the marriage of his millionaire ward, Billy McClintock to Miss Isabelle Pope, Shepherd's attorney declared today in his argument to the jury in the \$1,000,000 germ murder trial.

"Why shouldn't he have prevented it?" William Scott Stewart, Shepherd's chief counsel asked the jury. "That girl tried to marry Billy on his death bed. That would not have been a marriage to love, honor and obey—that would have been a marriage simply to get the money."

Stewart as he started his argument for Shepherd's acquittal at yesterday's session of court ridiculed the charges of murder. He had talked more than four hours and was not yet finished when court recessed for lunch.

WINONA MAN HAS DISAPPEARED

POLICE BELIEVE JOHN BUCHAN
MAY HAVE FALLEN INTO
RIVER

(By United Press)
Winona, June 25.—Police today were investigating the disappearance of John Buchan who has been missing for two days.

Mike Clemenski reported that late Tuesday evening he saw a man fall from a boat near the Burlington bridge. Upon investigation it was said that John Slaggie and the missing man had been together in two boats and that both were intoxicated.

When Slaggie was taken ashore yesterday, police said he was so intoxicated that he did not know whether Buchan was with him.

A jug of moonshine also was found in Buchan's boat, they said.

CANADIAN OFFICIAL AVERS
PEOPLE ARE TO BLAME FOR
CONSEQUENCES

DON'T HOLD FALSE HOPES TOW-
ARD YOUTHFUL GENERA-
TION, HE WARNS

St. Paul, June 25.—If politics and government are controlled by undesirable, then whose fault is it? And if politics and politicians are such ignoble and undesirable systems and persons, then why is there held out to every school boy in the United States, the hope that some day, he may become president of the United States?

A packed auditorium audience of Kiwanis international delegates was confronted with these questions by Charles Dunning, premier of Saskatchewan, the principal speaker at the morning session of the Kiwanis international delegates.

This "liberal" from Saskatchewan did not mince his words. His questions apparently were tempered with a seeming resentment of the popular notion regarding the state and condition of politics and politicians. Premier Dunning is known throughout Canada for his liberal tendencies. He has been in public office for more than nine years.

Prefacing his remarks with his own frank statement that he was "just a politician," he proceeded to define the word and its meaning.

"Politics," he said, "has come to be talked down as much as some other things are talked up and largely because of this regrettable habit that too many people assume, has it come to pass that politics generally and politicians certain, are looked upon with askance, as things unclean and to be shunned by right-minded men."

N. D. TO LOSE ITS HIGHWAY COMMISSION

(By United Press)
Bismarck, N. D., June 25.—Employees of the state highway commission have received their "departure" notices and all machinery in the department has been placed on the market for sale in preparation for the abolition of the commission July 1.

The action has resulted from recent resolution passed by the county board of county commissioners. The resolution specified that all war material and other material will be disposed of, either by auction or "community" sale.

DIED AS RESULT OF BEING HIT BY TRUCK

(By United Press)
Minneapolis, June 25.—Alexander G. Bainbridge, 73, former member of the board of education, died last night at General hospital as result of an automobile accident more than a month ago. Bainbridge was struck by a truck while on his way to work.

CHINESE KILLED IN ARIZONA TOWNS

(By United Press)
Nogales, Ariz., June 25.—Several Chinese were killed and considerable loot carried away by bandits who entered Magdalena, Sonora, and shot up the town, according to advices here today. Magdalena is 50 miles south of here.

BRITISH AND FRENCH MARINES RETURN THE FIRE

FOREIGN CASUALTIES 1 FRENCH-
MAN KILLED, 5 PEOPLE
WOUNDED

CLASH TOOK PLACE AT SHAMEEN
AND FOLLOWED STUDENT
DEMONSTRATION

(By United Press)
Hongkong, June 25.—The only foreign casualties in the clash at Shameen involving Chinese students and British were one Frenchman killed and one Britisher, two Japanese and two French wounded by shot from the Chinese demonstrators. The majority of Americans from Canton are safe here.

An American woman refugee who did not wish to disclose her name reported there had been heavy slaughter among the Chinese demonstrators when British and French marines responded to the fusillade of the Chinese against Shameen.

The American woman said the last section of the parade of the Chinese which comprised 3,000 military cadets equipped with rifles and bayonets deliberately fired on Shameen. She said Russian officers mounted and wearing paper masks gave the signal to fire. Thereupon, the cadets faced about and fired their fusillade. According to her, English and French marines replied, taking heavy toll among the Chinese.

Another American said that persons in the procession leaped like dervishes making threatening gestures and shouting, "kill the foreigners."

SHANGHAI CRIPPLED. BUSINESS PARALYZED

Shanghai, June 25.—The crippled city of Shanghai is struggling the fourth week of general strike with business practically paralyzed. The majority of able bodied men in the foreign settlement are members of the volunteer police reserve and are patrolling the city every night.

The center of violence, however, seems to have shifted to Hongkong.

SASH AND DOOR COMPANY OF MILL CITY IN FIRE LOSS

(By United Press)
Minneapolis, June 25.—The C. W. Lundquist Sash & Door company's factory here was destroyed by fire last night. The fire, which shot flames high into the air, attracted a crowd estimated at 3,000 who witnessed the firemen battling heroically to prevent spread of the flames to nearby buildings.

OUT OF WORK AND EVICTED

FAMILY OF 6 SPENDS NIGHT IN
ST. PAUL POLICE
STATION

(By United Press)
St. Paul, June 25.—Mrs. Helen Brown and her five children spent last night at central police station as a result of their being evicted from their home when the husband who had been out of work was unable to pay the rent.

Yesterday morning the family had a storage company haul away their household goods and Mrs. Brown and her children waited at the company's office, while the husband went out to find another home. She waited until 10 P. M. last night and then employees of the moving concern notified police. The group was given room in the matron's quarters.

Police were searching for Brown early today.

NOTICE TO THE PUBLIC

As I am intending to leave the city shortly for Riverside, Cal., I must dispose of all my holdings at once. As a result I will sell all my stock of diamonds, watches, clocks, sterling silverware, solid gold goods, plated silverware, and cut glass, at wholesale prices. This is a real sale of first-class, fresh goods, and not a fake sale, as I shall do as advertised. 297tf E. S. HOUGHTON.

Dividend Notice

62nd Consecutive Quarterly Dividend

Northern States Power Company

7% Preferred Stock

The usual announcement has been made that the Board of Directors of Northern States Power Company has declared the regular quarterly dividend of 1% per cent on the Preferred Stock of the Company, payable July 20th, 1925, to shareholders of record June 22nd, 1925.

groom, acted as bridesmaid, and Miss Ruth Wilson, of Crosby, as matron of honor. Harold Nelson, a brother of the groom, was best man. Lorraine McGee and Nickoline Schmidt, of Crosby, were flower girls, and Muriel Ebinger acted as ringbearer, carrying the ring in a white lily.

Preceding the ceremony Miss Bernice Samuelson sang "Oh Promise Me" and Rudolph Erickson sang "Because." Mrs. A. Samuelson played "Traumerei" and used Lohengrin's wedding march for the bridal procession.

The Misses Ellen Berglund and Bernice Samuelson were the ribbon stretchers. The bride was given away by her brother, Hjalmar Gustafson. The church was beautifully decorated with lilies, ferns and carnations.

The bride was attired in a gown of white georgette crepe, paneled with silk lace. She wore a veil of pearls and orange blossoms, and carried a shower bouquet of bridal roses and lilies of the valley.

The bridesmaid and matron of honor were dressed alike in Nile green crepe de chine, and carried bouquets of red roses and baby breath. The ring bearer wore white organdie, and the flower girls were dressed in green voile, hand embroidered, carrying baskets of roses and baby breath.

Following the pleasing ceremony a reception and banquet were held in the church parlors. Miss Elsie Hedlund rendered piano solos and Miss Bernice Samuelson sang. Toasts to the newlyweds were given by Rev. Samuelson, Dr. Nicholson and Wallace Anderson.

The banquet was served in five courses, and was a very elaborate affair. Much credit for its success is due Mrs. A. J. Ellison, who was in charge of its preparation.

Mr. and Mrs. Nelson left on Thursday morning for an extended honeymoon trip through the west. They will visit in Portland, Ore.; Seattle, Wash., and points on the Pacific coast, returning by way of the Canadian Rockies and Winnipeg. They will be at home at 1610 Mill avenue after July 15. The bride's traveling gown was of brown pique tulle.

Both contracting parties are well known in Brainerd. The bride is the daughter of Mrs. A. Gustafson of this city. She has lived here since early childhood, attended the local schools and is a graduate of the Brainerd Commercial College.

The groom is a son of Mr. and Mrs. P. A. Nelson. He was born and raised in the city, and attended the public schools here. He is employed as a machinist in the local Northern Pacific shops.

Out-of-town guests included Mrs. A. J. Wilson and Mrs. M. Anderson, of Minneapolis, Mr. and Mrs. S. E. Linde, Mrs. G. W. Wilson, Mr. and Mrs. Fred McGee, Mrs. J. Schmidt, and Mr. and Mrs. Arthur Johnson and family, all of Crosby.

W. C. T. U.

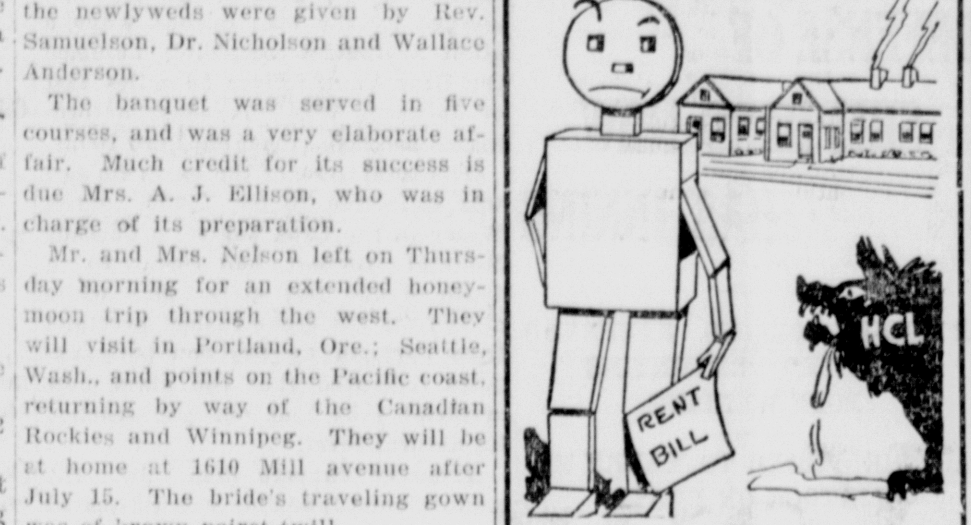

The W. C. T. U. will meet at the home of Mrs. G. E. Wolhart, 412 South 8th street, on Friday afternoon at 3 o'clock. All members are urged to be present as this is an important meeting. Visitors are welcome.

Ladies Birthday Club

The monthly meeting of the Ladies Birthday club of the Swedish Bethany church will be held at the home of Mrs. Emil Anderson, 1924 Rosewood street Southeast, Friday afternoon at 2:30 p. m. Members are urged to be present and visitors are welcome.

OBITUARY OF FRANK B. CONGDON

Prominent Farmer of Oak Lawn Township Passed Away Saturday

WAS BORN IN PENNSYLVANIA

Was One of the Pioneers of Brainerd and Crow Wing County

Frank B. Congdon, prominent farmer of Oak Lawn township, was born in Nelson, Tioga county, Pennsylvania, October 25th, 1853, and died suddenly on Saturday afternoon, June 20th, while assisting wood sawyers at his home, death being caused by heart trouble.

Mr. Congdon was one of the pioneers of Brainerd and Crow Wing county, coming to the city as a young man in 1877, when Brainerd was still practically a small settlement in the pine wilderness. At that time there was but one dwelling in Northeast Brainerd.

He followed the contracting business for a few years after arriving here, and during that time he hauled all of the rock used in the city school buildings, and also for the dam across the river at the paper mill. Later he worked for the Northern Pacific at its coal docks here, in the days when all of the work was done by hand.

In the fall of 1889 the Congdons moved to a homestead in Oak Lawn township, where they have since made their home, and where Mr. Congdon gained the reputation of being one of the county's most progressive farmers.

He was united in marriage to Miss Lydia Rathbun, of Nelson, Pennsylvania, on October 10th, 1874. To this union were born three sons and two daughters, who with their mother are left to mourn his loss. The sons are Henry R. Congdon, living on the home farm, Isaac and Merton of Brainerd. The daughters are Mrs. R. H. Tenney, of Minneapolis, and Mrs. George Curtis, of Seattle, Wash. He also survived by two sisters, Mrs. Henry Shaver, of Mapleton, N. D., and Mrs. Maria Kaine, of California, also a brother, William Congdon, of Gresham, Oregon.

Mr. Congdon was very active in civic affairs, taking a special interest in the good roads movement. At the time of his death he was chairman of the town board, an office he held for many years, and was also a member of the Farm Bureau.

Mr. and Mrs. Congdon celebrated the 50th anniversary of their wedding on last October 10th, when more than 200 friends and neighbors gathered at the Congdon home and enjoyed its hospitality. At that time the wedding ceremony was repeated, Mr. and Mrs. Congdon renewing their vows of a half century ago before Rev. A. G. Patterson.

Mr. Congdon has prized highly the events of that evening, which included a program of music and addresses, stories of the early days in this vicinity, told by the old timers, present, and closing with a delicious luncheon, served by the young people.

Mr. Congdon is characterized as a kind and loving husband and father, a good neighbor and a staunch friend, a man actively interested in the welfare of the community and working always for its advancement.

The funeral was held from the home on Tuesday afternoon, Rev. A. G. Patterson, of the Presbyterian

RECOVER FROM SEVERE BURNS

Mr. and Mrs. Carl Jordan of St. Mathias in Auto Accident

Struck by Overland Which It Is Claimed Was Traveling at High Speed

Mr. and Mrs. Carl Jordan, of St. Mathias, are slowly recovering from the shock and severe burns which

they received on Sunday afternoon.

The automobile in which they were riding, and which was driven by their son Charles, was struck by an Overland on the Thirteenth street road south of Brainerd. The Jordan car, a Ford, had pulled to one side of the road, it is stated, to avoid being struck by the Overland.

The Overland was owned by a Mr. Martineau, of Belle Prairie, and was driven by his son, who was accompanied by five other young people. It is claimed that the car was traveling at about 40 miles per hour.

Lively's stock of Ford parts is complete in every detail. Open day and night. 98c

Do I Need a Checking or a Savings Account—or Both?

IF you can properly sustain both a checking and a savings account, your situation is ideal. If only one, first get a savings account into healthy condition.

A savings account is the root which may nourish a sturdy financial growth. As soon as practicable a checking account should branch out of it. Then each can be administered so as to nurture the other.

Wealth is originated in a savings account; its use is regulated and controlled in a checking account.

A checking account should be started when one is in position to maintain a balance sufficient to satisfy ordinary banking requirements. Depositing all one's receipts in a checking account affords a complete income record on the stubs.

Paying by check produces a systematic record of outgo.

A monthly and annual recapitulation, under various heads, of both income and outgo, presents a complete financial record.

An accurate income tax return can be made from it.

With current obligations paid, and a proper balance maintained to justify the checking account sums may be transferred by check to the savings account; and transferred back when it is necessary to use them for certain purposes.

In the savings account, deposits may accumulate as an investment; also to meet tax or mortgage payments, life insurance premiums, or winter's fuel bills. Other recurring obligations, which strain the resources when calling for a considerable sum, are more easily met when accumulated a little at a time.

As one builds both accounts, his assets grow; he also creates a valuable asset in friendly interest at the bank.

A good rule to adopt is: Have a savings account now and keep it growing always; have a checking account when you can maintain balances at least large enough to reimburse the bank for handling it.

Then cultivate both accounts.

First National Bank of Brainerd

Buy Your Studebaker—Now!

You may buy a Studebaker today—or on any day of the year—with the confident assurance that no act of ours will stigmatize it as a "last year's model"

STUDEBAKER has discontinued the custom of presenting a new line of automobiles each year. Instead of bringing Studebaker cars dramatically up-to-date once in twelve months, we shall keep them up-to-date all of the time—with every improvement made available by our great engineering and manufacturing resources.

Improvements and refinements, of course, will be made from time to time. New features will be added. As in the past, we shall continue to pioneer all vital betterments. But Studebaker will have no yearly models to make your July car obsolete in August.

A dramatic story

There is a dramatic story behind this new Studebaker policy that vitally concerns everyone who expects to buy an automobile this year.

Amazing records of Studebaker performance and endurance prove beyond question that the present line of Studebaker cars is so soundly engineered and manufactured and so satisfactory in the hands of owners that drastic annual changes are not required.

Authentic reports show that hundreds of Studebaker cars have given from 125,000 to 400,000 miles of sturdy, dependable service. One Studebaker Big Six, used as a mail car, traveled almost 500,000 miles in 5½ years, giving 24-hour round trip service between Bakersfield and Los Angeles, California.

Stupendous mileage! But the same stamina and rugged dependability is built into every Studebaker that leaves the factory.

A Studebaker taxi in Jewett City, Conn., has

traveled 31,008 miles without even having the valves ground or the carbon removed.

In Stockton, Calif., a Studebaker Big Six has piled up 138,000 miles over steep mountain grades and rough country roads with negligible upkeep—not a single major part has been purchased or repaired by reason of wear or accident.

It is a significant fact that wherever travel conditions are most severe, Studebaker by far outsells its normal proportion of cars.

Bus Operators, Rent-a-Car Companies, Police and Fire Departments—all turn to Studebaker year after year for their transportation equipment, because they have found that it always yields scores of thousands of miles of reserve transportation, and has low upkeep costs.

At the mileage when other cars are breaking up—Studebaker cars are breaking in. It's the second and third fifteen thousand miles that prove Studebaker superiority. It's this reserve mileage—even though you may never use it—that greatly increases Studebaker resale value.

Stamina is in-built—inherent—a vital and indispensable part of the Studebaker formula for building fine motor cars.

Buy this "One Profit" car now

Remember—under this new Studebaker policy—there is no need to delay the purchase of your new automobile until annual changes have been made. Come in and see these sturdy, dependable, "one-profit" automobiles. Today Studebaker offers greater values than ever before. It is sound judgment to buy now.

SERVICE AND COURTESY PAY

SERVICE and courtesy are invaluable aids in building up a successful business. Their value is recognized by all lines of business, by service corporations like railway, streetcar and bus systems, water and light corporations, telephone systems, etc.

Here are some rules that are emphasized by the Portland Electric Power company, as related by the Industrial News Bureau:

When the customer comes in with a complaint, don't send him or her from pillar to post, for that is an irritating procedure.

Classify all complaints.

Study the cause of complaints; eradicate them at their source.

Completeness of your reply is only one-half courtesy; the manner of your reply is the other half.

Be polite and pleasant, thus making the party glad he or she called on you.

Show individuality to each customer; make him feel he is "Mr. Simpson" and not just one of the throng.

Get the other fellow's point of view.

Don't argue, inform.

In the old days, when one brought in a complaint, it was the habit of the employees of one public service corporation to argue with the party and try to convince him that he had no cause for complaint, in other words, that he did not know what he was talking about. Every time a patron has a complaint, every facility should be given him to voice his complaint.

No man ever built up a business, no corporation ever attained success, simply by reaping a harvest of bouquets. Too much in the line of bouquets produces a feeling of satisfaction and is a real bar to further improvement.

Constructive criticism is valuable. Complaints may work an improvement in service. They are the little points that require watching and a skillful executive keeps his eye on them and by correcting them works an improvement in the general service extended the public.

THE ORIGINAL REAL ESTATE PROMOTER

We have delved into history and have found the original real estate salesman of the American side of the world. He was operating 500 years before Christopher Colombo originated the slogan, "Westward Ho." He was doing business and encouraging immigration to these western shores five or more generations before our friend Columbus appeared on this earthly scene.

And who is the gentleman who exemplified so much originality in the year 992 A. D.? It is none other than Eric the Red, the old Scandinavian navigator, who landed far in the Northland among the icebergs and in the ice pack. True, there is vegetation there in the short summer, but in winter it is a forbidding place. So Eric the Red gave the region an attractive name, "Greenland," because he wanted to induce colonization from Norway to settle in the new country.

One of the purposes of the MacMillan Arctic expedition is to trace the route taken by Eric the Red. It is said that the ruins of the stone houses may be seen in the little settlements established by Eric the Red.

Eric faced more dangers than any modernly equipped Arctic expedition of the vintage of 1925. Eric sailed in small boats, without compass, sextant, map, and faced the Great Unknown with more supreme courage than Columbus or Magellan.

It is hoped MacMillan will be able to bring back new records of the history established by Eric the Red, thus giving him that commanding place in America "in the making," which he so richly deserves.

Eric well knew psychology. How could he ever attract a colonist had he dubbed his country "Snowland" or "Coldwater-town" or even "Iceland." He knew the value of a slogan and a name. And that brings us to the seeming paradox in the hymn which refers to Greenland's icy mountains.

DOGS ON THE RUNNING BOARDS

A WESTERN society for the Prevention of Cruelty to Animals has taken up a new phase. They claim it is downright cruelty to permit a dog to ride on a running board of an automobile, that the wind cuts the dog's face, that he stands exposed to action of wind and weather and car swerving, etc.

All we have to say is that western dogs have no sense if they do not know how to adapt themselves when riding a running board. Our Airedale, first time on the running board, hugged the hood of the car sensing its warmth, and poked his head near the headlight, thus avoiding the wind. Some dogs bark and scamper about before the owner starts his tour and are anxious to jump on the running board and occupy their accustomed space. If the action of riding on the board caused pain or misery, no dog would show any delight in occupying this seat of honor and would have to be dragged aboard and probably clained in place. We think this western society has taken up a foolish subject and nobody has studied the dog.

THE RIGHT OF A WOMAN TO TALK

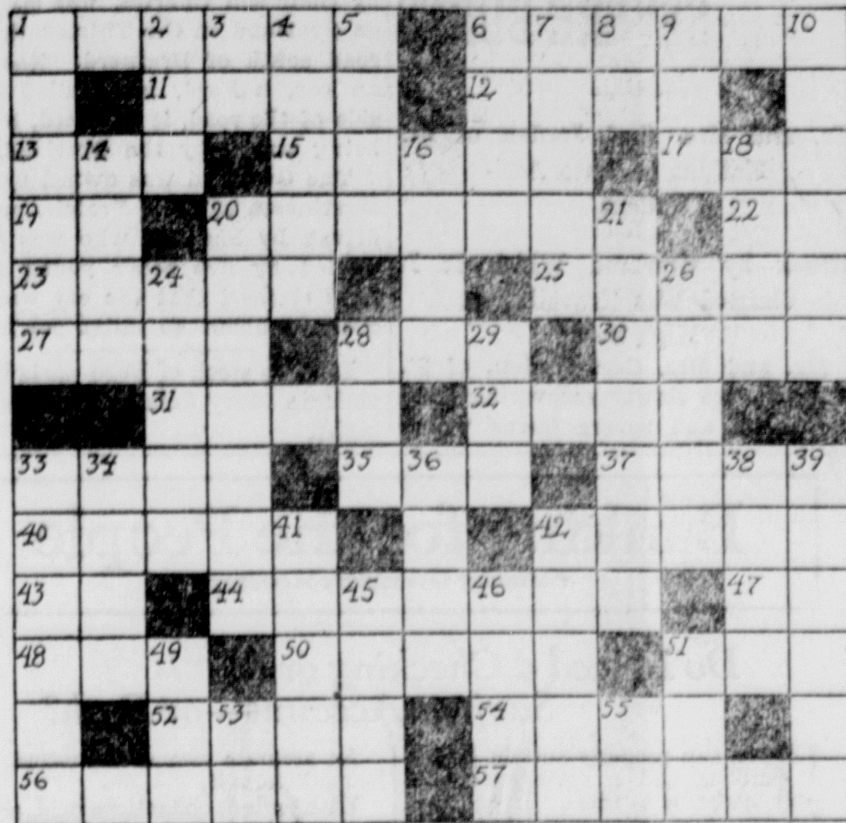

No court has the power to stop a woman from talking, is the ruling of Judge Walter Gates of Los Angeles. A husband had sought an injunction to restrain his wife from talking about him.

The judge, who is evidently a married man, decided it can't be done. And his decision will be received with approbation throughout the nation. The right of free speech is an inalienable right of every woman and no court would have the temerity to restrain any lady delivering a certain lecture. Happy the man who can restrain his proclivity to seek to reply whenever a lone opening presents itself, who can turn on his side and calmly seek the arms of Morpheus, undisturbed by the oratorical deluge.

JUST as we thought, we have not had the whole story of Amundsen's flight to the pole. He is to write a book and then lecture, telling us all about it. By the time he gets through, MacMillan should have material for his book and lectures.

THOUSANDS of bottles of beer were destroyed in St. Cloud and vicinity Tuesday night by four federal prohibition agents who conducted beer farm raids.

To Dispatch Editor:

Please pardon me for these lines, they are given in the interest of the Chautauqua now playing, its promoters and the people it is to benefit.

The program on Friday consists of two dramas, one at 3 p. m., the other at 7:45 p. m. On Friday the N. P. Shopmen work up to 3 p. m. It occurred to me that if the afternoon performance would start at say 3:15 p. m. a number of those men could and would attend this additional performance thereby participating more fully in the Chautauqua's splendid renditions.

Yours for success,
W. O. BOHMAN.

SERVICE AND COURTESY PAY

SERVICE and courtesy are invaluable aids in building up a successful business. Their value is recognized by all lines of business, by service corporations like railway, streetcar and bus systems, water and light corporations, telephone systems, etc.

Here are some rules that are emphasized by the Portland Electric Power company, as related by the Industrial News Bureau:

When the customer comes in with a complaint, don't send him or her from pillar to post, for that is an irritating procedure.

Classify all complaints.

Study the cause of complaints; eradicate them at their source.

Completeness of your reply is only one-half courtesy; the manner of your reply is the other half.

Be polite and pleasant, thus making the party glad he or she called on you.

Show individuality to each customer; make him feel he is "Mr. Simpson" and not just one of the throng.

Get the other fellow's point of view.

Don't argue, inform.

In the old days, when one brought in a complaint, it was the habit of the employees of one public service corporation to argue with the party and try to convince him that he had no cause for complaint, in other words, that he did not know what he was talking about. Every time a patron has a complaint, every facility should be given him to voice his complaint.

No man ever built up a business, no corporation ever attained success, simply by reaping a harvest of bouquets. Too much in the line of bouquets produces a feeling of satisfaction and is a real bar to further improvement.

Constructive criticism is valuable. Complaints may work an improvement in service. They are the little points that require watching and a skillful executive keeps his eye on them and by correcting them works an improvement in the general service extended the public.

THE ORIGINAL REAL ESTATE PROMOTER

We have delved into history and have found the original real estate salesman of the American side of the world. He was operating 500 years before Christoforo Colombo originated the slogan, "Westward Ho." He was doing business and encouraging immigration to these western shores five or more generations before our friend Columbus appeared on this earthly scene.

And who is the gentleman who exemplified so much originality in the year 992 A. D.? It is none other than Eric the Red, the old Scandinavian navigator, who landed far in the Northland among the icebergs and in the ice pack. True, there is vegetation there in the short summer, but in winter it is a forbidding place. So Eric the Red gave the region an attractive name, "Greenland," because he wanted to induce colonization from Norway to settle in the new country.

One of the purposes of the MacMillan Arctic expedition is to trace the route taken by Eric the Red. It is said that the ruins of the stone houses may be seen in the little settlements established by Eric the Red.

Eric faced more dangers than any modernly equipped Arctic expedition of the vintage of 1925. Eric sailed in small boats, without compass, sextant, map, and faced the Great Unknown with more supreme courage than Columbus or Magellan.

It is hoped MacMillan will be able to bring back new records of the history established by Eric the Red, thus giving him that commanding place in America "in the making," which he so richly deserves.

Eric well knew psychology. How could he ever attract a colonist had he dubbed his country "Snowland" or "Coldwater-town" or even "Iceland." He knew the value of a slogan and a name. And that brings us to the seeming paradox in the hymn which refers to Greenland's icy mountains.

DOGS ON THE RUNNING BOARDS

A WESTERN society for the Prevention of Cruelty to Animals has taken up a new phase. They claim it is downright cruelty to permit a dog to ride on a running board of an automobile, that the wind cuts the dog's face, that he stands exposed to action of wind and weather and car swerving, etc.

All we have to say is that western dogs have no sense if they do not know how to adapt themselves when riding a running board. Our Airedale, first time on the running board, hugged the hood of the car sensing its warmth, and poked his head near the headlight, thus avoiding the wind. Some dogs bark and scamper about before the owner starts his tour and are anxious to jump on the running board and occupy their accustomed space. If the action of riding on the board caused pain or misery, no dog would show any delight in occupying this seat of honor and would have to be dragged aboard and probably clained in place. We think this western society has taken up a foolish subject and nobody has studied the dog.

THE RIGHT OF A WOMAN TO TALK

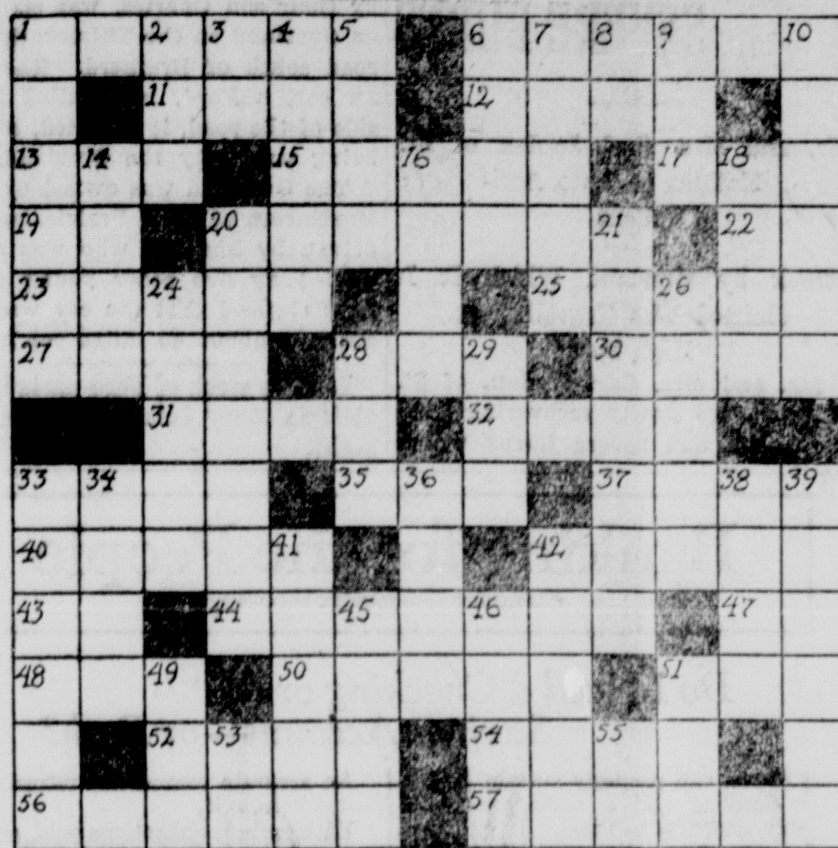

No court has the power to stop a woman from talking, is the ruling of Judge Walter Gates of Los Angeles. A husband had sought an injunction to restrain his wife from talking about him.

The judge, who is evidently a married man, decided it can't be done. And his decision will be received with approbation throughout the nation. The right of free speech is an inalienable right of every woman and no court would have the temerity to restrain any lady delivering a certain lecture. Happy the man who can restrain his proclivity to seek to reply whenever a lone opening presents itself, who can turn on his side and calmly seek the arms of Morpheus, undisturbed by the oratorical deluge.

JUST as we thought, we have not had the whole story of Amundsen's flight to the pole. He is to write a book and then lecture, telling us all about it. By the time he gets through, MacMillan should have material for his book and lectures.

THOUSANDS of bottles of beer were destroyed in St. Cloud and vicinity Tuesday night by four federal prohibition agents who conducted beer farm raids.

To Dispatch Editor:

Please pardon me for these lines, they are given in the interest of the Chautauqua now playing, its promoters and the people it is to benefit. The program on Friday consists of two dramas, one at 3 p. m., the other at 7:45 p. m. On Friday the N. P. Shophmen work up to 3 p. m. It occurred to me that if the afternoon performance would start at 3:15 p. m. a number of those men could and would attend this additional performance thereby participating more fully in the Chautauqua's splendid renditions.

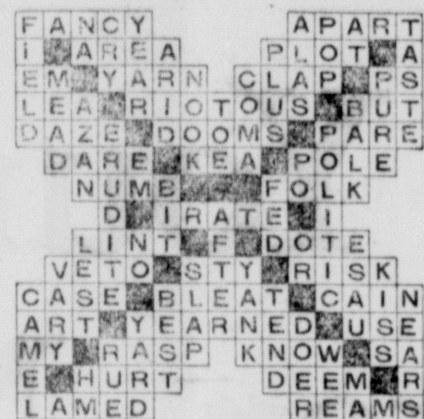

Yours for success,
W. O. BOHMAN.

R. L. GEIST IS HEAD OF LIONS

Elected President at Annual Meeting, Succeeding R. D. Stitzel

I. C. STROUT SECRETARY

Directors For Two Years Are Walter M. Murphy and Dr. W. A. Erickson

R. L. Geist was elected president of the Brainerd Lions club at the annual meeting held on Wednesday evening, succeeding R. D. Stitzel. Mr. Geist has taken a very active interest in the affairs of the club, and it is felt that the organization will accomplish much under his direction. The officers chosen for the coming year are as follows:

President—R. L. Geist.

1st Vice President—Kirk Smith.

2nd Vice President—E. G. Roth.

Secretary—I. C. Stout.

Treasurer—A. C. Mraz.

Tail Twister—J. A. Krause.

Lion Tamer—L. F. Hough.

Directors, 2 years—Walter M. Murphy, Dr. W. A. Erickson.

The club voted to hold its ladies' night entertainment at Breezy Point lodge, on Wednesday evening, July 8, the festivities being in charge of a special committee appointed for that purpose.

"Dusty" Miller, speaker of the evening at the Brainerd chautauqua, and

termed the civic and community evangelist, addressed the Lions club, using as his theme, "Community Spirit." In a humorous manner, punctuated with clever anecdotes, Mr. Miller drove home many strong points, and gave his hearers much good food for thought.

"If you will do the things that you don't have to do, as well as you do those that you must do, there is no limit to the service which your club will render to this community, and you will find that you individually as well as your organization, will have a steady, healthy growth," said Mr. Miller.

Auto Strop Razor
With Blades and Case

A genuine Autostrop Razor with blade, strop and case. At a price made possible by an enormous purchase for our 571 stores

25c

WE would not want to ask you to pay us one price today for a certain article and then have you go home and read in our advertisement that "for tomorrow only" or "during this sale," the price had been reduced. Such an experience would not check up well with the Golden Rule. We want you to enjoy the fullest return today and every day, from each and every dollar you spend at our Stores.

This Large Family of Department Stores

keeps a staff of 40 Buyers constantly in the biggest markets of production buying and paying cash for the goods which the \$90,000,000 business of our hundreds of Stores must have.

While this need of vast quantities of goods commands rock-bottom prices in every instance, our Buyers frequently arrange transactions that enable such peerless offerings as our union-made "Pay-Day" Overalls for men and boys at \$1.39, and our far-famed Gingham House Frocks at 79 cents.

When you have made comparisons you have been impressed that quality for quality and dollar for dollar, the Values at Penney's are indisputably superior—and that this is *not occasionally* but every day in the year.

We safeguard the interests of our Customers at all times for (1) we buy right in the beginning, (2) cutting out middlemen's profits, (3) frequently taking the entire output of mills, (4) demanding reliable standard of materials and workmanship, (5) bringing Producer and Consumer in closer touch with each other and giving the benefit of this contact to both.

From the above outline of our buying and selling plan, it is quickly understood that there *are* the very best of reasons why so-called "sales" are not only unnecessary but objectionable to this country-wide retail business and that the public benefits in a large way through this plan and operation not at "sale time" but all the time.

Buy at Penney's

where savings are greatest
every day in the year!

A genuine Autostrop Razor with blade, strop and case. At a price made possible by an enormous purchase for our 571 stores

25c

WE would not want to ask you to pay us one price today for a certain article and then have you go home and read in our advertisement that "for tomorrow only" or "during this sale," the price had been reduced. Such an experience would not check up well with the Golden Rule. We want you to enjoy the fullest return today and every day, from each and every dollar you spend at our Stores.

This Large Family of Department Stores

keeps a staff of 40 Buyers constantly in the biggest markets of production buying and paying cash for the goods which the \$90,000,000 business of our hundreds of Stores must have.

While this need of vast quantities of goods commands rock-bottom prices in every instance, our Buyers frequently arrange transactions that enable such peerless offerings as our union-made "Pay-Day" Overalls for men and boys at \$1.39, and our far-famed Gingham House Frocks at 79 cents.

When you have made comparisons you have been impressed that quality for quality and dollar for dollar, the Values at Penney's are indisputably superior—and that this is *not occasionally* but every day in the year.

We safeguard the interests of our Customers at all times for (1) we buy right in the beginning, (2) cutting out middlemen's profits, (3) frequently taking the entire output of mills, (4) demanding reliable standard of materials and workmanship, (5) bringing Producer and Consumer in closer touch with each other and giving the benefit of this contact to both.

From the above outline of our buying and selling plan, it is quickly understood that there *are* the very best of reasons why so-called "sales" are not only unnecessary but objectionable to this country-wide retail business and that the public benefits in a large way through this plan and operation not at "sale time" but all the time.

Buy at Penney's
*where savings are greatest
every day in the year!*

DUSTY MILLER MAKES A HIT

Humorous Lecturer at Chautauqua
Enunciates His Philosophy of
Life With Telling Effect

QUARTET IS ENCORED

Thursday is Big Day With Two
Lecturers And Orchestral
Sextet

The hit of the Chautauqua season so far in the way of lecturers is "Dusty" Miller, who spoke last night and immediately caught the fancy of the large audience. "Dusty" is said to be one of the most unique and worth-while men on the American platform. He is a humorist, philosopher, and civic evangelist combined.

"Dusty" was the owner and editor of the News-Journal at Wilmington, Ohio, until the demands for him on the platform took most of his time. Now he travels from coast to coast and writes most of his newspaper editorials on Pullman trains and in hotels.

In 1924, he delivered more than 300 addresses, 28 of them in Dayton, Ohio; 27 of them in Columbus, 12 in Cincinnati, 10 in Cleveland. The secretaries of Rotary clubs at Indianapolis, Indiana; Cleveland, Ohio; Cincinnati, Ohio, have written personal letters in which they say Miller is a ten strike. Well, he lived up to all expectations in his lecture at Brainerd last night.

The Chicago mixed quartet, heard afternoon and evening, made a great impression and were kept busy responding to encores demanded by the enthusiastic audience.

Remembered Dispatch Newsboys

R. R. Wise, one of the heaviest ticket subscribers of the present Chautauqua, remembered 20 newsboys of the Brainerd Dispatch, presenting them with season tickets. The Dispatch, in behalf of the carriers, wishes to thank Mr. Wise for his kindness and courtesy.

In the carrier list are many boys and a few girls too and they formed a solid front row at the theatre and appreciated every number of this Chautauqua.

Thursday Program

Today's program is a remarkable one, bringing two of the most distinguished lecturers of the nation here. Dr. Roy L. Smith, pastor of the Simpson Methodist church of Minneapolis, author of "Sentence Sermons," spoke at 4 o'clock this afternoon and held his audience enthralled.

This evening Dr. S. Parkes Cadman will lecture. He is not only one of the world's leading preachers, but is also recognized as one of the greatest church statesmen of his time. Last December at the Atlanta Convention, Dr. Cadman was elected President of the Federated Council of the churches of Christ of America. In this capacity he will attend the International Convention held at Stockholm, Sweden, about the middle of August, this year. Dr. Cadman is unquestionably

America's greatest radio star as is evidenced by his mail that comes in by truck loads from the millions who have learned to know and love his voice over WEAF. Like the immortal John Wesley, Dr. Cadman has taken the world for his parish and our chautauqua committee has been exceedingly fortunate in securing him for one of the few chautauqua engagements he is filling this summer. His three New York pastorates cover a period of thirty years. He is now pastor of the famous Central Congregational church of Brooklyn.

The Schubert orchestral sextet played this afternoon and will also be heard this evening. This organization will offer programs of unusual variety and merit. Many different instrumental combinations will be provided by this versatile company. The mere suggestion of the instrumentation of piano, violin, harp, cornet, flute, saxophone, drums, tympani, marimbaphone, chimes, is an assurance of the popular character of the organization. The personnel, Mary Esther Winslow, piano; Marie Rosell, harp; C. Nelson, violin; Manuel Witte, violin; T. Hemp, cornet; and Stewart Churchill, drums and marimbaphone, makes possible the popular

Friday Program

Friday's program, afternoon and evening, features the Bennett Dramatic Company. At 3:15 p. m. they present "Fine Feathers," a domestic drama.

At 7:45 p. m. they present the favorite play, "Peg O' My Heart," a great comedy.

Few dramatic offerings can boast of a two years continuous run on Broadway, but "Peg O' My Heart" is

one of these, and will be one of the attractions at the chautauqua this year. This clever comedy was written by J. Hartley Manners. It is replete with wit, laughter, and optimism, and is intensely human. It is the story of a little uncultural Irish-American girl, lovable and witty, born in a squalid home in New York City, who by chance suddenly finds herself in the home of her aunt in London—a most exclusive aristocratic English family. You must see the play to appreciate it; it will make you forget your troubles and send you

home with a smile. Grouches are warned to stay at home the night "Peg" comes to the chautauqua.

Friday Afternoon Hour

Due to a request of shopmen, so they may be permitted to see the play Friday afternoon play, the hour has been changed from 3 p. m. to 3:15 p. m.

EXTENSIVE REPAIR PROGRAM OF SCHOOLS

Authorized by Board of Education at
Special Meeting

Held

MANY REPORTS ARE MADE

Ground Floor Gymnasium Urged by
State Department of
Education

An extensive repair program for the Brainerd school buildings was authorized by the board of education at a special meeting, called by the president for the purpose of receiving reports from the committee on buildings, grounds and janitors, and the committee on health and sanitation, and for the consideration of such reports and action thereon.

The report of the committee on buildings, grounds and janitors was first received, and because this report contains much of general interest to the public, the board desired that it be published in detail, as follows:

Brainerd, Minnesota,
June 15, 1925.

To the Officers and Members of
the Board of Education of the
Brainerd School District:—

The Committee on Buildings, Grounds and Janitors submits herewith a report on general repairs and improvements for your consideration and action. The report is compiled after several trips of inspection through the various school buildings.

In summing up the items of repairs and improvements we will note that the cost may appear quite large; however, we must console ourselves with the fact that our school buildings, with the exception of the two frame buildings (the Riverside and the Garfield) have been in use for many years and the repair bills increase as each additional year of school usage is added to the wear of the buildings. Not only must we wrestle with the many items of repair, but there is also the problem of providing some additional classroom, especially in this true in the Washington or High School building and to some extent in the Harrison and Lincoln. In the Washington building this problem is most serious. The enrollment shows an increase each year and while we have utilized space for schoolroom purposes that was never intended to be used for this purpose at the time the buildings were erected, still we are unable to keep ahead of the crowded condition. And now at the present time the Committee must state that we are about to the end of the rope in the way of providing any more additional space in this, the Washington building, unless we can expand to the outside and add on a gymnasium on the ground floor where it should be and use the present gymnasium for additional classroom space and possibly a Chemical Laboratory. Our present Chemical Laboratory is somewhat of a joke and an eyesore to us all. This probably could be moved elsewhere.

In providing additional space we are confronted with the necessity of adding more boiler capacity, for the present equipment is carrying all that we can tie onto them; also, we must bear in mind that these boilers are going on the 24th year of constant service and may give out at any time as the average life of a steam boiler is 15 years.

While the Bond issue for a new High School building failed to carry, we cannot lose sight of the fact that we must provide some additional classroom in some manner if it is at all possible to do so. The State Department is laying more stress on Physical Training, Athletics, and so on, and our present facilities for carrying on this work is very limited and the Committee is of the opinion that all Board Members would rest easier if basket-ball games, class plays and exercises were held in a room on the ground floor. Your Building Committee, the President of our Board and the Superintendent possibly feel the responsibility of this condition just a little more keenly than the rest of the board members and for this reason we desire, with this report, to earnestly bring to your attention this matter and we hope that you will seriously, very seriously, consider the situation from all angles.

After careful inspection of the school buildings by your Committee, accompanied by the President of this Board, the Superintendent, and other Members of this Board, we list herewith items suggested in the way of repairs needed in the various school buildings:

Whittier Building

BASEMENT
New fire hose.
Paint sidewalls of the classroom.
1st landing, south entrance, some maple flooring replaced.

1ST FLOOR
S. E. room and N. E. room steel ceiling, also hallway.

N. W. room, three curtain shades. Book room, light glass. Water supply pipe from main to building should be relaid with not less than 4 inch pipe. New mains have been laid by the Water & Light Department and if you will recall there were several bad leaks in this pipe line, coming in the dead of winter, which showed that the line has deteriorated to such an extent that it must be replaced. Two holes in the roof gutter on the East side of the building must be patched up and the decking receive a coat of paint.

The floor in the attic of this building should be floored over.

The radiation should be painted

over and a lighter shade used, possibly silver.

The exterior of this building, with the exception of the brick work and the shingles, should have at least one coat of paint.

This condition is true of all of the buildings, excepting the Riverside and the Garfield.

Some grading should be done and a cement walk laid to the East entrance to the building.

Several window sashes should be replaced.

Harrison Building

East entrance, bars on door are out of order.

Stairs to basement, East side, worn through, should be turned over and relaid.

Boys' Toilet Room. Two more pieces of equipment should be installed. East stone wall plastered up and entire room painted. Some asbestos covering on ceiling over the boiler, about ten feet square. Foul air pipe leading out through coal bin should have trap.

Covering on boilers must be replaced.

Both classrooms in basement should be painted one coat of flat paint, this to include the cloak rooms and the floors.

S. W. room two lights glass and screen should be placed on the outside of the windows of the two rooms.

Blackboards reset. Bookcase stained and painted.

Girls' Toilet. Plaster up stone wall and tint piping and some paint on woodwork to side walls on stairs leading to basement from 1st landing on South side of building.

East side first landing some maple flooring replaced.

Stair steps South entrance, first half relaid by turning over.

A strip of new flooring at top of landing first floor South entrance, a space back to radiator and across hallway to West side.

1ST FLOOR

S. E. room, light of glass.

Radiation in this building should be tinted in the same manner as suggested for the Whittier building.

Some tacking strip should be provided.

N. W. room, steel ceiling paint and also paint side walls and cloak room.

Rewire and provide for four outlets and light fixtures.

N. E. room steel ceiling. Hallway steel ceiling and rewire.

Tint cloak room for the N. E. room.

Book room, paint walls.

Two newel post knobs.

2ND FLOOR

Two north rooms steel ceiling.

Hallway steel ceiling and replaster part of side wall.

Twelve curtain rods. Two more side rails for stairway.

Roof. Tack edges of decking and place a few shingles.

If possible jack up and brace a portion of roof near the N. W. corner.

Stone steps to S. entrance must be repaired and the cheapest way to repair them is to make a new set of steps, using the present stone with cement.

Down spouts repaired.

All of the exterior, excepting the brick work and shingles should have a coat of paint and before this is done some of the window sash should be replaced.

Lincoln Building

BASEMENT

Girls' Toilet Room. Paint all over one coat of flat paint on walls and one coat on wood work. Stone walls should first be scraped with stiff wire brush.

Strip of asbestos on ceiling over boiler. Some repair work done to fire boxes.

Boys' Toilet Room. Paint one coat all through.

More cupboard space for the S. E. room.

Additional classroom.

We have moved the office of the U. S. V. Bureau from the N. W. basement room to the room on the first floor. It was planned some time ago by this Board to endeavor to place a classroom in this corner of the basement and in order to be able to determine just what could be done towards fitting of this place for this purpose we have removed all the partitions, taken up the flooring and taken off the wainscoting. We can report to the effect that a fairly good classroom can be provided in this space of about the same order as the one in the N. W. corner of the basement in the Harrison building. Windows should be cut down and the openings made larger. Size of room would be about 24x26 and with cloak room.

Steel ceiling should be placed in the two hallways.

Roof. South gutter work must have attention, several leaks and in fact, the entire gutter work on this building should be overhauled. These have not been looked after on this building for several years and we must keep the roofs in proper condition. A new flag post must be provided, the present one is rotting and may snap off.

A little flooring should be replaced at East entrance to building.

As recommended for the other buildings, we suggest the same for this building; paint all exterior excepting the brick work and shingles and before this is done several window sashes should be replaced. Possibly some cornice boards will have to be replaced.

Lowell Building

BASEMENT

N. W. room a coat of paint all through, including the floor.

Teachers' lunch room to be tinted up.

Stone walls to be treated with coat of moisture proof paint.

Box up shut off piping to water system.

Paint girls' toilet room two coats and touch up piping.

S. E. room paint and treat side walls as suggested for the N. W. room. Teacher's desk should be re-varnished, or possibly a new desk should be provided. This old one is about done. This is true regarding several desks in the various buildings and a dozen desks at least should be purchased by the Board this year. We have been holding off for the past few years on the purchase of furniture on account of the excessive high cost, but there seems to be no relief in sight and we really need some teachers' desks and chairs.

Boiler room. Relay floor with cement.

Brace up coal bin on the East of the building and finish up same to ceiling. Boiler room should be treated to a coat of whitewash. Storm shed should be provided to door entering boiler room from the North.

Boys' toilet room. Paint throughout, one coat, including the piping. Doors to East entrance out of condition.

1ST FLOOR

Hallway steel ceiling. Redecorate entire hallway.

Paint side walls in all rooms on this floor.

Some steps to be taken up and relaid by turning over.

Wiring should be gone over.

Weather stripping should be placed in the windows of the book room and an effort made to keep out some of the dirt and sand that seems to seep into this room and on to the books. It appears necessary that all books stored in this room be wrapped in bundles with paper in order to keep them somewhere near clean.

Six small curtains should be provided.

2ND FLOOR

N. E. room steel ceiling and re-

wire for three outlets. Paint side walls.

Roof. Paint decking one coat on the West half of the building.

Paint all exterior of building excepting the brick work and the shingles.

Replace some sash before this is done.

Some grading should be done to the S. E. quarter of the property.

Washington Building

BASEMENT

Repair windows and provide coal chutes.

Clean out soil pipes from cooking room.

Floor of cement should be laid in boiler rooms and to do a good job of this the present pieces of brick work should all be taken out and cement floor laid with at least two drain basins in order that this can be cleaned out in a proper way by using the hose and water pressure.

A space should then be fenced off with chicken wire for storage for oil and another space near engine for storage of toweling, etc. This item of repair will run around \$500.00.

The separator tank in the boiler room must be taken down and cleaned and the pump should be overhauled.

Three lights of glass needed in North wall of basement.

Manual training room coat of paint on the ceiling.

Normal training room paint floor one coat.

1ST FLOOR

Book room paint one coat.

Cooking room paint in shade to conform with sewing room and possibly two coats will be required.

Curtain shades in sewing room.

N. W. room four curtain shades.

2ND FLOOR

Senior room. Paint entire room, ceiling and side walls.

Three light fixtures. Present two have been broken.

One additional door should be provided.

(Continued on Page 8)

The College Boys Are Here And Will Call Upon You

A group of ambitious, wide-awake young men are working in this city during their Summer vacation, to earn their tuition to college. One of these students will call on you within the next few days to explain to you a plan which will make it easy for you to get Pictorial Review regularly. He will have nothing else to offer you. Each student will carry with him an official certificate on which will appear his photograph, his description, and his signature.

The names of the young college men are as follows:

Ashley Hill
Al Lepac
Harvey Hall

Maynard Heins
Ted Pfeiffer
Russel Barsness

And Now---

With Pictorial Review patterns and the new printed feature the art of home dress making is greatly simplified. You'll find many economies by purchasing materials and patterns of us for your garments.

EXTENSIVE REPAIR PROGRAM OF SCHOOLS

Authorized by Board of Education at Special Meeting Held

MANY REPORTS ARE MADE

Ground Floor Gymnasium Urged by State Department of Education

An extensive repair program for the Brainerd school buildings was authorized by the board of education at a special meeting, called by the president for the purpose of receiving reports from the committee on buildings, grounds and janitors, and the committee on health and sanitation, and for the consideration of such reports and action thereon.

The report of the committee on buildings, grounds and janitors was first received, and because this report contains much of general interest to the public, the board desired that it be published in detail, as follows:

Brainerd, Minnesota, June 15, 1925.

To the Officers and Members of the Board of Education of the Brainerd School District:—

The Committee on Buildings, Grounds and Janitors submits herewith a report on general repairs and improvements for your consideration and action. The report is compiled after several trips of inspection through the various school buildings.

In summing up the items of repair and improvements we will note that the cost may appear quite large; however, we must console ourselves with the fact that our school buildings, with the exception of the two frame buildings (the Riverside and the Garfield) have been in use for many years and the repair bills increase as each additional year of school usage is added to the wear of the buildings. Not only must we wrestle with the many items of repair, but there is also the problem of providing some additional classroom, especially in this true in the Washington or High School building and to some extent in the Harrison and Lincoln. In the Washington building this problem is most serious. The enrollment shows an increase each year and while we have utilized space for schoolroom purposes that was never intended to be used for this purpose at the time the buildings were erected, still we are unable to keep ahead of the crowded condition. And now at the present time the Committee must state that we are about to the end of the rope in the way of providing any more additional space in this, the Washington building, unless we can expand to the outside and add on a gymnasium on the ground floor where it should be and use the present gymnasium for additional classroom space and possibly a Chemical Laboratory. Our present Chemical Laboratory is somewhat of a joke and an eyesore to us all. This probably could be moved elsewhere.

In providing additional space we are confronted with the necessity of adding more boiler capacity, for the present equipment is carrying all that we can tie onto them; also, we must bear in mind that these boilers are going on the 24th year of constant service and may give out at any time as the average life of a steam boiler is 15 years.

While the Bond issue for a new High School building failed to carry, we cannot lose sight of the fact that we must provide some additional classroom in some manner if it is at all possible to do so. The State Department is laying more stress on Physical Training, Athletics, and so on, and our present facilities for carrying on this work is very limited and the Committee is of the opinion that all Board Members would rest easier if basket-ball games, class plays and exercises were held in a room on the ground floor. Your Building Committee, the President of our Board and the Superintendent possibly feel the responsibility of this condition just a little more keenly than the rest of the board members and for this reason we desire, with this report, to earnestly bring to your attention this matter and we hope that you will seriously, very seriously, consider the situation from all angles.

After careful inspection of the school buildings by your Committee, accompanied by the President of this Board, the Superintendent, and other Members of this Board, we list here, with items suggested in the way of repairs needed in the various school buildings:

Whittier Building

BASEMENT
New fire hose.
Paint sidewalls of the classroom.
1st landing, south entrance, some maple flooring replaced.

1ST FLOOR
S. E. room and N. E. room steel ceiling, also hallway.

N. W. room, three curtain shades. Book room, light glass. Water supply pipe from main to building should be relaid with not less than 4 inch pipe. New mains have been laid by the Water & Light Department and if you will recall there were several bad leaks in this pipe line, coming in the dead of winter, which showed that the line has deteriorated to such an extent that it must be replaced. Two holes in the roof gutter on the East side of the building must be patched up and the decking receive a coat of paint.

The floor in the attic of this building should be floored over.

The radiation should be painted

over and a lighter shade used, possibly silver.

The exterior of this building, with the exception of the brick work and the shingles, should have at least one coat of paint.

This condition is true of all of the buildings, excepting the Riverside and the Garfield.

Some grading should be done and a cement walk laid to the East entrance to the building.

Several window sashes should be replaced.

Harrison Building

East entrance, bars on door are out of order.

Stairs to basement, East side, worn through, should be turned over and relaid.

Boys' Toilet Room. Two more pieces of equipment should be installed. East stone wall plastered up and entire room painted. Some asbestos covering on ceiling over the boiler, about ten feet square. Foul air pipe leading out through coal bin should have trap.

Covering on boilers must be replaced.

Both classrooms in basement should be painted one coat of flat paint, this to include the clock rooms and the floors.

S. W. room two lights glass and screen should be placed on the outside of the windows of the two rooms.

Blackboards reset. Bookcase stained and painted.

Girls' Toilet. Plaster on stone wall and tint piping and some paint on woodwork to side walls on stairs leading to basement from 1st landing on South side of building.

East side first landing some maple flooring replaced.

Stair steps South entrance, first half relaid by turning over.

A strip of new flooring at top of landing first floor South entrance, a space back to radiator and across hallway to West side.

1ST FLOOR
S. E. room, light of glass.

Radiation in this building should be tinted in the same manner as suggested for the Whittier building.

Some tacking strip should be provided.

N. W. room, steel ceiling paint and also paint side walls and cloak room. Rewire and provide for four outlets and light fixtures.

N. E. room steel ceiling. Hallway steel ceiling and rewire.

Tint cloak room for the N. E. room.

Book room, paint walls.

Two newel post knobs.

2ND FLOOR
Two north rooms steel ceiling.

Hallway steel ceiling and replaster part of side wall.

Twelve curtain shades. Two more side rails for stairway.

Roof. Tack edges of decking and place a few shingles.

If possible jack up and brace a portion of roof near the N. W. corner.

Stone steps to S. entrance must be repaired and the cheapest way to repair them is to make a new set of steps, using the present stone with cement.

Down spouts repaired.

All of the exterior, excepting the brick work and shingles should have a coat of paint and before this is done some of the window sash should be replaced.

Lincoln Building

BASEMENT
Girls' Toilet Room. Paint all over one coat of flat paint on walls and one coat on wood work. Stone walls should first be scraped with stiff wire brush.

Strip of asbestos on ceiling over boiler. Some repair work done to fire boxes.

Boys' Toilet Room. Paint one coat all through.

More cupboard space for the S. E. room.

Additional classroom.

We have moved the office of the U. S. V. Bureau from the N. W. basement room to the room on the first floor. It was planned some time ago by this Board to endeavor to place a classroom in this corner of the basement and in order to be able to determine just what could be done towards fitting of this place for this purpose we have removed all the partitions, taken up the flooring and taken off the wainscoting. We can report to the effect that a fairly good classroom can be provided in this space of about the same order as the one in the N. W. corner of the basement in the Harrison building. Windows should be cut down and the openings made larger. Size of room would be about 24x26 and with cloak room.

Steel ceiling should be placed in the two hallways.

Roof. South gutter work must have attention, several leaks and in fact, the entire gutter work on this building should be overhauled. These have not been looked after on this building for several years and we must keep the roofs in proper condition. A new flag post must be provided, the present one is rotting and may snap off.

A little flooring should be replaced at East entrance to building.

As recommended for the other buildings, we suggest the same for this building; paint all exterior excepting the brick-work and shingles and before this is done several window sashes should be replaced. Possibly some cornice boards will have to be replaced.

Lowell Building

BASEMENT
N. W. room a coat of paint all through, including the floor.

Teachers' lunch room to be tinted up.

Stone walls to be treated with coat of moisture proof paint.

Box up shut off piping to water system.

Paint girls' toilet room two coats and touch up piping.

S. E. room paint and treat side walls as suggested for the N. W. room. Teacher's desk should be re-varnished, or possibly a new desk should be provided. This old one is about done. This is true regarding several desks in the various buildings and a dozen desks at least should be purchased by the Board this year. We have been holding off for the past few years on the purchase of furniture on account of the excessive high cost, but there seems to be no relief in sight and we really need some teachers' desks and chairs.

Boiler room. Relay floor with cement.

Brace up coal bin on the East of the building and finish up same to ceiling. Boiler room should be treated to a coat of whitewash. Storm shed should be provided to door entering boiler room from the North.

Boys' toilet room. Paint throughout, one coat, including the piping.

Doors to East entrance out of condition.

1ST FLOOR
Hallway steel ceiling. Redecorate entire hallway.

Paint side walls in all rooms on this floor.

Some steps to be taken up and relaid by turning over.

Wiring should be gone over.

Weather stripping should be placed in the windows of the book room and an effort made to keep out some of the dirt and sand that seems to seep into this room and on to the books. It appears necessary that all books stored in this room be wrapped in bundles with paper in order to keep them somewhere near clean.

Six small curtains should be provided.

2ND FLOOR
N. E. room steel ceiling and re-

wire for three outlets. Paint side walls.

Roof. Paint decking one coat on the West half of the building.

Paint all exterior of building excepting the brick work and the shingles.

Replace some sash before this is done.

Some grading should be done to the S. E. quarter of the property.

Washington Building

BASEMENT
Repair windows and provide coal chutes.

Clean out soil pipes from cooking room.

Floor of cement should be laid in boiler rooms and to do a good job of this the present pieces of brick work should all be taken out and cement floor laid with at least two drain basins in order that this can be cleaned out in a proper way by using the hose and water pressure.

A space should then be fenced off with chicken wire for storage for oil and another space near engine for storage of toweling, etc. This item of repair will run around \$500.00.

The separator tank in the boiler room must be taken down and cleaned and the pump should be overhauled.

Three lights of glass needed in North wall of basement.

Manual training room coat of paint on the ceiling.

Normal training room paint floor one coat.

1ST FLOOR
Book room paint one coat.

Cooking room paint in shade to conform with sewing room and possibly two coats will be required.

Curtain shades in sewing room.

N. W. room four curtain shades.

2ND FLOOR
Senior room. Paint entire room, ceiling and side walls.

Three light fixtures. Present two have been broken.

One additional door should be provided.

(Continued on Page 8)

The College Boys Are Here And Will Call Upon You

A group of ambitious, wide-awake young men are working in this city during their Summer vacation, to earn their tuition to college. One of these students will call on you within the next few days to explain to you a plan which will make it easy for you to get Pictorial Review regularly. He will have nothing else to offer you. Each student will carry with him an official certificate on which will appear his photograph, his description, and his signature.

The names of the young college men are as follows:

Ashley Hill
Al Lepac
Hardey Hall

Maynard Heins
Ted Pfeiffer
Russel Barsness

And Now---

With Pictorial Review patterns and the new printed feature the art of home dress making is greatly simplified. You'll find many economies by purchasing materials and patterns of us for your garments.

3 BOYS CATCH DEER ON BIG PELICAN LAKE

ENGLAND SENDING BEST WOMAN PLAYERS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, June 25.—Four of the best woman players in England are being sent to this country next month to defend the Wightman Cup against the American challengers.

Like the Walker Golf Cup, the Wightman Cup is not defended on the home courts of the holding team, but is played in the United States and England on alternate years. In 1923, the first year the cup was placed in competition, the American team defeated the British team 7 to 0 and last year on the courts at Wimbledon, the British team won by a score of 6 to 1.

Up to this time it has seemed that geographical conditions more than tennis were the big factors in the victory and that the home team would win on alternate years. In 1923 the British women were not acclimated, the turf was strange and they were not familiar with the ball. Last year the American girls couldn't get used to the climate in England, they didn't know how to handle the ball and the moss-like turf on the Wimbledon courts was too smooth for them.

Perhaps the British girls will have the same experience this year at Forest Hills. Miss Kathlene McKane, the Wimbledon champion, is the only one on the team who has had any experience in this country.

Two of the British girls—Misses Evelyn Colyer and Joan Fry—are sure to attract attention in this country. Miss Colyer, especially is a very colorful and spectacular player. It was because of her acrobatics on the court that photographers have been barred from the All-England club at Wimbledon. She is even more flashy on her feet than Suzanne Lenglen, but of course, she hasn't the strokes or the steadiness of the French star.

The other members of the team are Mrs. Lambert Chambers, one of the best players in England, and Miss Kathlene McKane, the former tea-shop girl, who despises to be called Kitty.

The heavy burden of the American challenge, of course, will fall upon Miss Helen Wills, the youthful national champion, and Mrs. Molla Mallory, the former champion, who is said to be in the best condition of her career.

It is too early to speculate on the other players that will be named on the team by the United States Lawn Tennis Association. Mrs. Wightman, if she is in competition, no doubt will be named captain of the team, as she would make a formidable doubles combination with Miss Wills.

Unless the change of climate throws off the game of the cup defending team, the Americans will have no cinch in winning. They will have great difficulty in winning if the British girls are in any way near their real form.

EXTENSIVE REPAIR PROGRAM OF SCHOOLS

(Continued from page 1)

N. W. room paint and provide three light fixtures and two curtain shades.

Three curtain shades for the type-writing room. Also paint this room. Commercial room paint and provide three light fixtures. At least thirty new chairs should be provided for this room. Of the present lot in use, there are possibly not to exceed a half dozen that are in solid condition.

S. W. room, old part of building. Seven curtains, of which number two must be new and five new rollers. Three light fixtures.

N. W. room steel ceiling and paint. Three light fixtures.

N. E. room, new part of building, steel ceiling and paint. Steel ceiling also to hallway on the first floor. Hallway, steel ceiling and tint side walls.

THIRD FLOOR

Two recitation rooms to the South end of the building, paint both. A few small leaks appear in the gutter corners and these should be looked after and also a hole batted into the room by the cover to hatchway blowing off.

Hallway at top landing to present gym room should be painted down to first landing of steps between third and second floors.

One light fixture should be installed on this first landing.

All exterior work on this building, with the exception of the brick work and shingles should be painted and before this is done some of the window sash should be replaced.

General

In addition to the items noted in the above, there are many items of a small nature that must always be attended to and while it does not mean any great amount of outlay for any of these separate things to be done, yet when all put together and summed up we find that it costs a considerable little sum also for this what might be termed "putter work."

At the Washington the question of daylight is causing some concern. The shade trees on the East side of the property are becoming so tall as to shut out very much light from this building. Just what would be the better plan to follow, to cut off the tops of the trees and not remove any entirely or to cut out every other tree on the East side of the building, is a question that all will not respond to with the same answer.

Of the work suggested in the way of repairs and improvements, certain parts should be let by contract such as:

Providing the classroom at the Lincoln building.

Steel ceilings for 7 hallways and 9 rooms.

Painting and redecorating to be done at each building.

Furnishing and installing of 18 light fixtures.

After a short discussion of this report, a motion carried that it be received and that the committee on buildings, grounds and janitors be instructed to prepare specifications for such parts of the repair work that can be let by contract, and the secretary be directed to advertise for bids on this work, such bids to be opened at the July 6th meeting of the board. The committee was further directed to proceed at once with the other items of repairs and improvements that cannot be let by contract.

As noted in the report, the committee lays strong stress on the importance of getting the gymnasium

down from the third floor, where it is now located, to the ground floor, on account of the enthusiasm shown in athletics, and the very large crowds that attend the many athletic events staged there.

The president of the board called particular attention of all members present to this portion of the report, and in commenting upon it he stated that some effort should be made to bring the gymnasium down to the ground floor. This met with the hearty approval of all members present, and a motion carried that the secretary be directed to get in touch with reliable architects, preferably Groff and Boerner, architects of the Minneapolis auditorium, who prepared the plans for the remodeling of the entrances to the local school buildings, to prepare plans and estimates for a gymnasium to be submitted at the July meeting of the board.

The report of the health and sanitation committee was next considered. This committee has examined the conditions existing in close proximity to the Lincoln school, which matter was referred to it by the board at its regular June meeting.

It was found that about 35 feet from the fresh air intake of this school house, and in a southwesterly direction, is an outhouse which constantly gives off a very offensive odor, very accentuated in hot weather. About 85 feet distant from the same point are two additional outhouses in the same condition, likewise contributing their obnoxious influence to the surrounding atmosphere, according to the report of the committee.

The committee considers this condition very insanitary, both in connection with the air that is sent into the classrooms, and also with the adjacent playgrounds. It is the committee's understanding that a city ordinance gives the city council power to compel those responsible for these conditions, when offensive, and when there exists an available sanitary sewer at the premises, to connect with such sanitary sewer and eliminate all outhouses.

The report of the committee was accepted and in accordance with the recommendations contained in the report, the secretary was instructed to take up the matter with the city council.

All members of the board were present at this special meeting with the exception of K. S. Bredenberg and S. A. Stanley.

GOITRE COMPLETELY REMOVED FOR THIS LADY

No Knife, Needle, Pain or Stain. Colorless Liniment Used

MICHAEL HOLTER, ROGER AND GORDON FAWCETT, CAPTORS

FIRST SIGHTED ANIMAL WALKING ALONG SHORE NEAR BREEZY POINT

PURSUED IT IN LAKE AND LASSOED DEER WITH ANCHOR ROPE

While fishing for bass on Big Pelican Lake at 5 o'clock this morning, Michael Holter of Minneapolis and Roger and Gordon Fawcett of Breezy Point, sighted a deer walking along the shore about two miles from the summer resort. Thinking the animal had escaped from the Breezy Point Zoo, the three nimrods landed their boat nearby and surrounded the deer, which proved to be a yearling doe. The deer charged at Gordon Fawcett, a 13-year old lad, and Gordon scared it into the water by hitting it with a rock. The deer immediately started swimming for the east shore of the lake.

The fishermen then ran to their boat and started the outboard motor in swift pursuit. The animal had nearly reached the shore of Velvet Beach summer resort before being overtaken. Neither Holter nor the Fawcett boys had ever before seen a wild deer and were in a quandary as to what to do. Finally one of them lassoed the swimming animal with the anchor rope and headed back for Breezy Point Lodge, nearly five miles away. By this time Mrs. Deer was somewhat exhausted and her captors took turn about in holding her head above water while slowly rowing homeward.

When land was again reached the deer was turned over to three fishing-guides who carried it to the lodge's deer pasture. It was then learned that no animals had escaped. Captain Fawcett has asked permission of the Game Commission, through Pete Cardell, deputy warden at Brainerd, to retain the deer.

FLYING EBONY SURE STARTER AT LATONIA

Latonia, June 25.—Flying Ebony, Kentucky derby winner, will be a starter in the \$25,000 Latonia derby next Saturday. This seemed assured when William Duke, trainer of the Cochran horses, wired asking for stable reservations for the crack 3-year-old.

If Flying Ebony wins the Latonia event he will be the first horse to take down the extra \$5,000 offered by the Kentucky Jockey club to the owner of the horse winning both derbies.

COBB AMAZES CANDIANS BY HIS ALL-AROUND PLAY

Toronto, June 25.—Ty Cobb was the big noise here in an exhibition game on Tuesday.

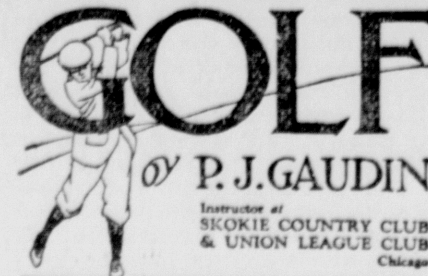

The pilot of the Detroit club made four hits in four times up, getting a home run, double and two singles. He played the outfield until the eighth, when he went to the mound and hurled the last two innings, allowing one run.

BIDS WANTED

School Board of District 84 will receive sealed bids at office of clerk up to Wednesday, July 1st 1925 for removing of old shingles and laying new ones on school building. District to furnish all materials.

Board reserves right to reject any or all bids.

ELMER PETERSON,
Clerk District No. 84, Rt. 2, Fort Ripley, Minn.

13—Position for Overspin Putt.

The one absolute essential in making the overspin putt is that the club go back at right angles to the line and prove that it has hit the ball when at right angles by finishing at right angles.

While nothing else is absolutely essential, it might be well to try out various approved methods and use such of them as will be of advantage. Any stance is good that does not prevent the proper swinging of the club, but if you have any trouble in choosing one, suppose you try this: Stand with the heels close together, or touching. Instead of standing square to the line, keep facing further toward the hole until you find the comfortable position. From an erect position, let the body settle almost wholly on top of the left leg. The right foot being in front, this naturally will cause a slight bend in the right knee. Lean forward to a point where the inside of the right forearm rests on top of the right thigh. This anchors the whole right side. Try this position in any wind short of a gale and you will find there is no tendency to sway.

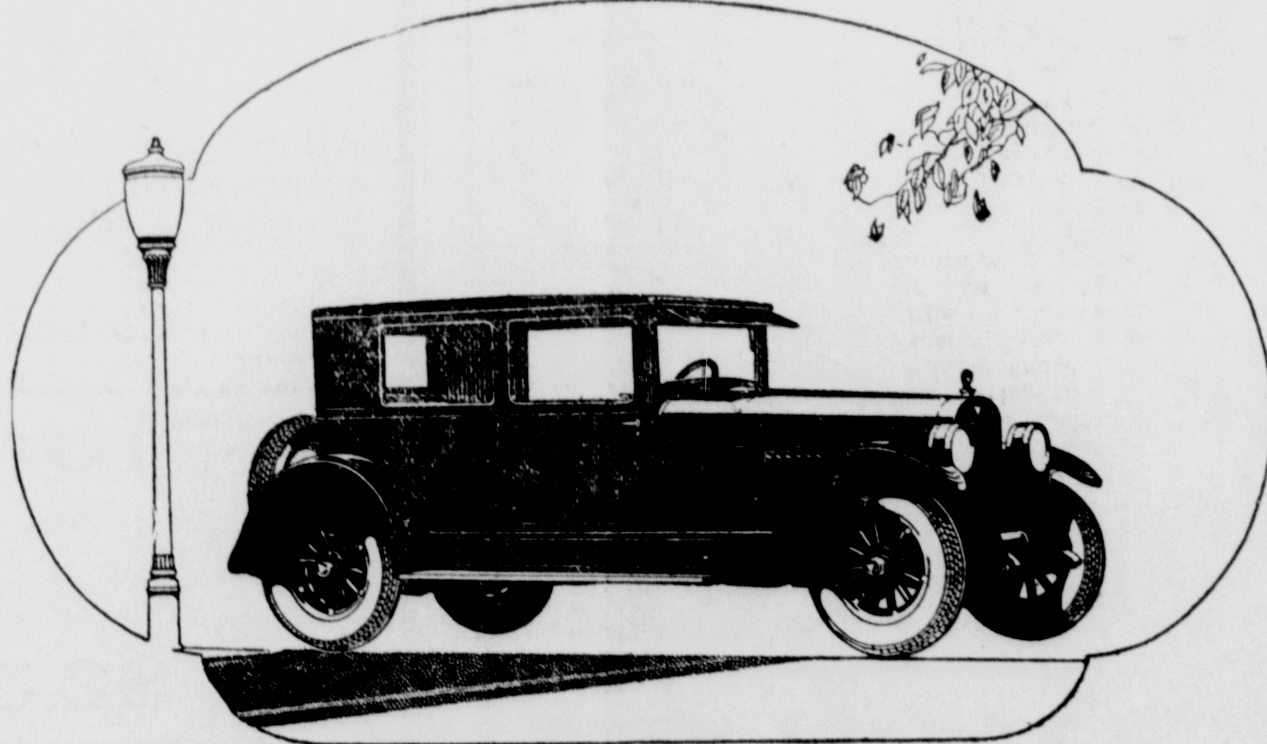

Now take this position with the eyes over a line and see if the club can be swung correctly. The whole stance may need adjustment, probably beginning with the left elbow. It should be free from the side in any event, or the club head will be drawn in to the left. Lift the left elbow until it is pointing in the general direction or straight at the hole. It may take considerable experimenting, but there will come a point where the swing can be made comfortably. Hold that position until you have carefully noted every point. Then practice the swing over a straight line, getting out of and coming back to the position at each swing. The whole idea now is to learn to assume this position automatically.

Get a mental picture of yourself. You feel that you are sitting on top of your left leg. Your right forearm is pressed against your right thigh firmly enough to serve as an anchor. Your extended left elbow seems to be a forward rudder to keep the club over the line. Your eyes are directly over where the ball would be, and you know there is not a particle of movement except at the wrists and a trifle in the forearms. Do all this thoughtfully and slowly.

(©, 1925, Western Newspaper Union.)

UNITED STATES TEAM RETAINS POLO TITLE

London, June 25.—The United States army polo team won its second match against the British army team at Hurlingham club, 6 goals to 4, thereby retaining the international military championship won at Meadowbrook last year. America won the first of the three-game series last Saturday, 8 goals to 4. The final match will be played at Hurlingham on Saturday.

FOR

3 BOYS CATCH DEER ON BIG PELICAN LAKE

ENGLAND SENDING BEST WOMAN PLAYERS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, June 25.—Four of the best woman players in England are being sent to this country next month to defend the Wightman Cup against the American challengers.

Like the Walker Golf Cup, the Wightman Cup is not defended on the home courts of the holding team, but is played in the United States and England on alternate years. In 1923, the first year the cup was placed in competition, the American team defeated the British team 7 to 0 and last year on the courts at Wimbledon, the British team won by a score of 6 to 1.

Up to this time it has seemed that geographical conditions more than tennis were the big factors in the victory and that the home team would win on alternate years. In 1923 the British women were not acclimated, the turf was strange and they were not familiar with the ball. Last year the American girls couldn't get used to the climate in England, they didn't know how to handle the ball and the moss-like turf on the Wimbledon courts was too smooth for them.

Perhaps the British girls will have the same experience this year at Forest Hills. Miss Kathlene McKane, the Wimbledon champion, is the only one on the team who has had any experience in this country.

Two of the British girls—Misses Evelyn Colyer and Joan Fry—are sure to attract attention in this country. Miss Colyer, especially is a very colorful and spectacular player. It was because of her acrobatics on the court that photographers have been barred from the All-England club at Wimbledon. She is even more flashy on her feet than Suzanne Lenglen, but of course, she hasn't the strokes or the steadiness of the French star.

The other members of the team are Mrs. Lambert Chambers, one of the best players in England, and Miss Kathlene McKane, the former tea-shop girl, who despises to be called Kitty.

The heavy burden of the American challenge, of course, will fall upon Miss Helen Wills, the youthful national champion, and Mrs. Molla Mallory, the former champion, who is said to be in the best condition of her career. It is too early to speculate on the other players that will be named on the team by the United States Lawn Tennis Association. Mrs. Wightman, if she is in competition, no doubt will be named captain of the team, as she would make a formidable doubles combination with Miss Wills.

Unless the change of climate throws off the game of the cup defending team, the Americans will have no clutch in winning. They will have great difficulty in winning if the British girls are in any way near their real form.

EXTENSIVE REPAIR PROGRAM OF SCHOOLS

(Continued from page 1)

N. W. room paint and provide three light fixtures and two curtain shades.

Three curtain shades for the type-writing room. Also paint this room. Commercial room paint and provide three light fixtures. At least thirty new chairs should be provided for this room. Of the present lot in use, there are possibly not to exceed a half dozen that are in solid condition.

S. W. room, old part of building. Seven curtains, of which number two must be new and five new rollers. Three light fixtures.

N. W. room steel ceiling and paint. Three light fixtures.

N. E. room, new part of building, steel ceiling and paint. Steel ceiling also to hallway on the first floor.

Hallway, steel ceiling and tint side walls.

THIRD FLOOR

Two recitation rooms to the South end of the building, paint both. A few small leaks appear in the gutter corners and these should be looked after and also a hole batted into the room by the cover to hatchway blowing off.

Hallway at top landing to present gym room should be painted down to first landing of steps between third and second floors.

One light fixture should be installed on this first landing.

All exterior work on this building, with the exception of the brick work and shingles should be painted and before this is done some of the window sash should be replaced.

General

In addition to the items noted in the above, there are many items of a small nature that must always be attended to and while it does not mean any great amount of outlay for any of these separate things to be done, yet when all put together and summed up we find that it costs a considerable little sum also for this what might be termed "putter work."

At the Washington the question of daylight is causing some concern. The shade trees on the East side of the property are becoming so tall as to shut out very much light from this building. Just what would be the better plan to follow, to cut off the tops of the trees and not remove any entirely or to cut out every other tree on the East side of the building, is a question that all will not respond to with the same answer.

Of the work suggested in the way of repairs and improvements, certain parts should be let by contract such as:

Providing the classroom at the Lincoln building.

Steel ceilings for 7 hallways and 9 rooms.

Painting and redecorating to be done at each building.

Furnishing and installing of 18 light fixtures.

After a short discussion of this report, a motion carried that it be received and that the committee on buildings, grounds and janitors be instructed to prepare specifications for such parts of the repair work that can be let by contract, and the secretary be directed to advertise for bids on this work, such bids to be opened at the July 6th meeting of the board. The committee was further directed to proceed at once with the other items of repairs and improvements that cannot be let by contract.

As noted in the report, the committee lays strong stress on the importance of getting the gymnasium

down from the third floor, where it is now located, to the ground floor, on account of the enthusiasm shown in athletics, and the very large crowds that attend the many athletic events staged there.

The president of the board called particular attention of all members present to this portion of the report, and in commenting upon it he stated that some effort should be made to bring the gymnasium down to the ground floor. This met with the hearty approval of all members present, and a motion carried that the secretary be directed to get in touch with reliable architects, preferably Groft and Boerner, architects of the Minneapolis auditorium, who prepared the plans for the remodeling of the entrances to the local school buildings, to prepare plans and estimates for a gymnasium to be submitted at the July meeting of the board.

The report of the health and sanitation committee was next considered. This committee has examined the conditions existing in close proximity to the Lincoln school, which matter was referred to it by the board at its regular June meeting.

It was found that about 35 feet from the fresh air intake of this school house, and in a southwesterly direction, is an outhouse which constantly gives off a very offensive odor, very accentuated in hot weather. About 85 feet distant from the same point are two additional outhouses in the same condition, likewise contributing their obnoxious influence to the surrounding atmosphere, according to the report of the committee.

The committee considers this condition very insanitary, both in connection with the air that is sent into the classrooms, and also with the adjacent playgrounds. It is the committee's understanding that a city ordinance gives the city council power to compel those responsible for these conditions, when offensive, and when there exists an available sanitary sewer at the premises, to connect with such sanitary sewer and eliminate all outhouses.

The report of the committee was accepted and in accordance with the recommendations contained in the report, the secretary was instructed to take up the matter with the city council.

All members of the board were present at this special meeting with the exception of K. S. Bredenberg and S. A. Stanley.

GOITRE COMPLETELY REMOVED FOR THIS LADY

No Knife, Needle, Pain or Stain, Colorless Liniment Used

Mary A. Steinmetz, 301 N. 2nd St., Missoula, Mont., says: "Sorbol-Quadruple has so completely removed my goitre that you can not tell I ever had one. I will be glad to tell any one how it affected me."

Sold at all drug stores or write Sorbol Company, Mechanicsburg, Ohio. Locally at Johnson's Pharmacy.—Adv.

MICHAEL HOLTER, ROGER AND GORDON FAWCETT, CAPTORS

FIRST SIGHTED ANIMAL WALKING ALONG SHORE NEAR BREEZY POINT

PURSUED IT IN LAKE AND LASSOED DEER WITH ANCHOR ROPE

While fishing for bass on Big Pelican Lake at 5 o'clock this morning, Michael Holter of Minneapolis and Roger and Gordon Fawcett of Breezy Point, sighted a deer walking along the shore about two miles from the summer resort. Thinking the animal had escaped from the Breezy Point Zoo, the three nimrods landed their boat nearby and surrounded the deer, which proved to be a yearling doe. The deer charged at Gordon Fawcett, a 13-year old lad, and Gordon scared it into the water by hitting it with a rock. The deer immediately started swimming for the east shore of the lake.

The fishermen then ran to their boat and started the outboard motor in swift pursuit. The animal had nearly reached the shore of Velvet Beach summer resort before being overtaken. Neither Holter nor the Fawcett boys had ever before seen a wild deer and were in a quandary as to what to do. Finally one of them lassoed the swimming animal with the anchor rope and headed back for Breezy Point Lodge, nearly five miles away. By this time Mrs. Deer was somewhat exhausted and her captors took turn about in holding her head above water while slowly rowing homeward.

When land was again reached the deer was turned over to three fishing-guides who carried it to the lodge's deer pasture. It was then learned that no animals had escaped. Captain Fawcett has asked permission of the Game Commission, through Pete Cardell, deputy warden at Brainerd, to retain the deer.

FLYING EBONY SURE STARTER AT LATONIA

Latonia, June 25.—Flying Ebony, Kentucky derby winner, will be a starter in the \$25,000 Latonia derby next Saturday. This seemed assured when William Duke, trainer of the Cochran horses, wired asking for stable reservations for the crack 3-year-old.

If Flying Ebony wins the Latonia event he will be the first horse to take down the extra \$5,000 offered by the Kentucky Jockey club to the owner of the horse winning both derbies.

COBB AMAZES CANDIANS BY HIS ALL-AROUND PLAY

Toronto, June 25.—Ty Cobb was the big noise here in an exhibition game on Tuesday.

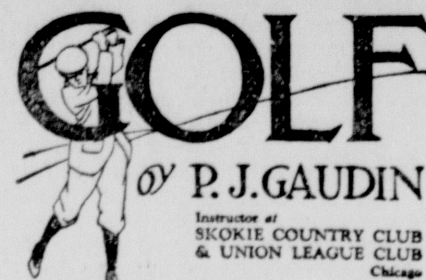

The pilot of the Detroit club made four hits in four times up, getting a home run, double and two singles. He played the outfield until the eighth, when he went to the mound and hurled the last two innings, allowing one run.

BIDS WANTED

School Board of District 84 will receive sealed bids at office of clerk up to Wednesday, July 1st 1925 for removing of old shingles and laying new ones on school building, District to furnish all materials.

Board reserves right to reject any or all bids.

ELMER PETERSON,
Clerk District No. 84, Rt. 2, Fort Ripley, Minn.

13—Position for Overspin Putt.

The one absolute essential in making the overspin putt is that the club go back at right angles to the line and prove that it has hit the ball when at right angles by finishing at right angles.

While nothing else is absolutely essential, it might be well to try out various approved methods and use such of them as will be of advantage. Any stance is good that does not prevent the proper swinging of the club, but if you have any trouble in choosing one, suppose you try this: Stand with the heels close together, or touching. Instead of standing square to the line, keep facing further toward the hole until you find the comfortable position. From an erect position, let the body settle almost wholly on top of the left leg. The right foot being in front, this naturally will cause a slight bend in the right knee. Lean forward to a point where the inside of the right forearm rests on top of the right thigh. This anchors the whole right side. Try this position in any wind short of a gale and you will find there is no tendency to sway.

Now take this position with the eyes over a line and see if the club can be swung correctly. The whole stance may need adjustment, probably beginning with the left elbow. It should be free from the side in any event, or the club head will be drawn in to the left. Lift the left elbow until it is pointing in the general direction or straight at the hole. It may take considerable experimenting, but there will come a point where the swing can be made comfortably. Hold that position until you have carefully noted every point. Then practice the swing over a straight line, getting out of and coming back to the position at each swing. The whole idea now is to learn to assume this position automatically.

Get a mental picture of yourself. You feel that you are sitting on top of your left leg. Your right forearm is pressed against your right thigh firmly enough to serve as an anchor. Your extended left elbow seems to be a forward rudder to keep the club over the line. Your eyes are directly over where the ball would be, and you know there is not a particle of movement except at the wrists and a trifle in the forearms. Do all this thoughtfully and slowly.

(©, 1925, Western Newspaper Union.)

UNITED STATES TEAM RETAINS POLO TITLE

London, June 25.—The United States army polo team won its second match against the British army team at Hurlingham club, 6 goals to 4, thereby retaining the international military championship won at Meadowbrook last year. America won the first of the three-game series last Saturday, 8 goals to 4. The final match will be played at Hurlingham on Saturday.
